MOB LYNCHES 3 NEGROES IN FLORIDA MURDER

Sailors In Mutiny
Put To Rout
By Chinese Troops

PARIS, Oct. 6.—Fourteen hundred Russian sailors led a revolt in Petrograd September 28, which resulted in two days of street fighting, according to newspapers here today. The report said the insurrection was crushed by Chinese mercenaries and that fifty-four leaders of the mutiny were shot.

The sailors were joined by munitions factory workers, according to the newspaper dispatches, and aided in the manning of eighteen naval guns taken to Petrograd from Kronstadt. Four hundred sailors were said to have been killed and wounded in the two days of fighting. The fighting was extensive. Both sides employed barricades in the streets. Snipers for both sides operated from the roofs of buildings.

Friends of Slain Man Await Capture of Fourth Suspect in Crime.

MACCLENNY, Florida, Oct. 6.—A triple lynching here today awaited the capture of Jim Givens, negro murderer, to become quadruple. Givens' capture was expected hourly.

The three negroes killed were Ben and Ray Givens and Foltom Smith, charged with implication in the killing of John Harvey, a prominent young farmer.

A mob stormed the jail, took the negroes, bound them to trees and riddled them with bullets. Jim Givens, who is charged with having actually fired the shot which killed Harvey, escaped after the crime.

JAPS SEEK CONTROL OF PACIFIC CABLE

WASHINGTON, Oct. 6.—Efforts by Japan to control a cable across the Pacific ocean between the United States and Japan came to light today.

A proposal was made some time ago with the approval of the Mikado's government that the United States and Japan co-operate in building a cable across the Pacific. The plan was rejected because of the insistence of Japan the cable be controlled by a Japanese company.

This proposal was considered significant here because of the possibility of the Japanese delegation bringing up the plan again at the preliminary meeting here Friday of the five great powers in connection with the international communications conference. Should the proposal again be broached, it is believed Japan will modify the plan with a view of meeting the objections of the United States.

The state department pointed out that the Japanese government forbids the landing of any foreign cables on Japanese shores, and replied that the American government could not allow the landing of the proposed cable on American soil if it were controlled by foreign interests.

GOV. ALLEN CHARGES FARMERS ARE CHEATED

HARPER, Kan., Oct. 6.—Gov. Allen, in an address here denounced what he termed the tactics of the Chicago Board of Trade in hammering down the prices of wheat, and announced that he had made a request of President Wilson that he investigate the Board of Trade with a view to preventing such tactics.

He has asked the president to lay an embargo upon Canadian wheat.

The Kansas farmer has been the victim of a gigantic steal," said Gov. Allen. "The export conditions do not warrant such decreases in the wheat prices as have taken place in the last few days. This practice of manipulating the markets for the benefit of wheat gamblers must be stopped. The president has power under the law to close the Board of Trade if unfair methods are being used and he should use that power immediately."

ONE DEAD, FOUR HURT AS GASSER EXPLODES

CHEYENNE, Wyo., Oct. 6.—One man is dead, four are dying, and flames uncheckered are shooting 250 feet into the air from the Midwest Ohio gas well, fifty-five miles southwest of Basco, as the result of a spark caused by friction of the drilling apparatus at the well Sunday.

Physicians were sent from Basin because of the impossibility of transporting the injured men overland from the Buffalo Basin oil fields. There is no communication with the camp by telephone.

The flames from the well can be seen for 100 miles across the country. It is said to be the largest gas well yet found. The derrick was destroyed.

SAN DIEGO MAN GETS FEDERAL OFFICE JOB

LOS ANGELES, Oct. 6.—Herbert Ellis of San Diego took the oath of office yesterday as an assistant in the office of U. S. Attorney O'Connor.

The resignation of W. Fleet Palmer as first assistant United States attorney some days ago left vacancies all along the line. Mr. Ellis will take his place at the foot of the official ladder. Gordon Lawson has been promoted to the post of first assistant; Thomas F. Green to second assistant; Milton Bryan to third, and Burton B. Crane to fourth assistant, the new man being fifth assistant. The job he takes pays \$2000 a year.

NEW THEORY IN DENTON CASE, TIP REPORT

Register Man Gets Information as to Fresh Angle Sifted by Sleuths.

LOS ANGELES, Oct. 6.—Mrs. Richard C. Peete, central figure in the investigation of the murder of J. C. Denton, has been cleared of any suspicion in connection with the crime, according to a statement made today by Judge O. N. Hilton, of Ontario, her attorney.

"Chief Deputy District Attorney W. C. Doran admitted to me this morning that he had nothing on my client, Mrs. Peete," Hilton's statement said.

Doran today evaded service of a writ of habeas corpus for the appearance of Mrs. Peete before Superior Judge Jackson. The writ was issued last night after Hilton charged Mrs. Peete was being unlawfully restrained of her liberty by Doran.

H. H. Steely, formerly of Salt Lake, and now on the staff of the Register, has prepared an article bearing on the latest developments in the Denton murder mystery. Last night, in Los Angeles, where Steely has a considerable acquaintance among newspapermen, he had an excellent opportunity to gather from authorities their newest theories in connection with the puzzling Denton affair. Steely's article follows:

By H. H. STEELY.

Startling evidence brought to light in Los Angeles since the arrival of Mrs. R. C. Peete, enigma woman of the now famous Denton murder mystery, gives investigators reason to believe that the body found in the basement of the Catalina street mansion may not be that of Jacob Charles Denton, retired mining broker.

This was the confidential opinion expressed last night in Los Angeles during a conference of detectives.

The case baffles the police. Certain marks of identification which are known to have been characteristic of Denton are missing on the body, says Assistant District Attorney W. C. Doran. The two middle fingers of Denton's hands were known to have been identically the same size, a circumstance which is unusual with the average person, according to a statement by L. A. Beck, a nephew of Denton.

It is true that the body that was found was approximately the same size as that of Denton. It is also true that Denton was known to possess a gold tooth, a bald spot on his head and tints of gray hair on his scalp. But there are thousands of men who possess the same characteristics.

Detectives now saw that there is just as much chance that the body is not that of Denton as that it is. The body is too badly decomposed to admit of making out the features which once stood prominently. Reliable investigators say that the only real identification that can be made of a man are the features in his face, scars or disabled limbs. The body in this case is in such state that identification is impossible say the detectives.

They say Denton's arm was broken several years ago. This occurs to too many men. If it is Denton who was found murdered, there is reason to believe that the crime could have been cleared up before this, detectives declare. There is much evidence on hand to work on, but the whole matter is that no one knows whether or not the body is that of the retired mining broker.

There is missing a certain diamond ring which Denton is said to have valued more than any other one part of his personal belongings. It is said that this ring was to tightly banded about his finger that it could not be taken off without amputation of the finger. This is new evidence brought to light through Denton's nephews. The body was found without the ring, and there are no indications that any attempt was made to force a ring from the finger, say the police.

A new theory confidentially held by the investigators last night was that Denton may have murdered a man with whom he quarreled, possibly over financial deals. Fearing that he might be discovered if he buried the body other than in his own home, Denton carried the remains of his victim to the basement of his mansion and there left the body, according to this latest theory. Possibly accidentally caught by Mrs. Peete in the crime, Denton was under indictment for alleged violation of passport regulations, according to Immigration Inspector W. W. Heath.

It is charged Sichofsky entered the United States at Tia Juana without inspection. Sichofsky said he shipped two carloads of walnuts, making four which have gone forward to eastern points this week.

BROWNLOW SEEN IN L.A., REPORT

Friends Claim to Have Seen Missing Santa Ana Painter on Street.

Information which may lead to the finding of M. A. Brownlow, who wandered away from his home here early Saturday morning, and has not been seen since, was uncovered today when Roy Morrison, a painter here, and a member of the same union as Brownlow, received information to the effect that Brownlow was seen yesterday in Los Angeles.

Morrison is in Los Angeles today attempting to locate the missing man. The information was given Sheriff Jackson's office this morning by Mrs. Morrison, and the Los Angeles police were immediately informed to be on the lookout for Brownlow, whose description is already in their possession.

Additional information regarding Brownlow's movements were given today by Len Morris, a farmer, who declared that he picked up a man on the road to Black Star canyon Sunday morning, whose appearance tallied with that of Brownlow. Morris said the man's actions were decidedly queer. After riding about a mile with Morris, he suddenly informed the latter that he was on his way to San Diego.

San Diego police have been asked to look for the missing man, but no report has as yet been received from them. It is considered highly possible, however, that Brownlow may have got confused and, instead of getting a lift to San Diego, was picked up by a machine going in the opposite direction and taken to Los Angeles.

Morris is told that the man he picked up, near Black Star canyon, whom he was sure was Brownlow after looking at the latter's photograph at the sheriff's office today, was very set in his mind that he was going to San Diego. It is not at all impossible that the missing man reached the latter city, and will be found there.

This was the confidential opinion expressed last night in Los Angeles during a conference of detectives.

The case baffles the police. Certain marks of identification which are known to have been characteristic of Denton are missing on the body, says Assistant District Attorney W. C. Doran.

It is true that the body that was found was approximately the same size as that of Denton. It is also true that Denton was known to possess a gold tooth, a bald spot on his head and tints of gray hair on his scalp. But there are thousands of men who possess the same characteristics.

Detectives now saw that there is just as much chance that the body is not that of Denton as that it is. The body is too badly decomposed to admit of making out the features which once stood prominently. Reliable investigators say that the only real identification that can be made of a man are the features in his face, scars or disabled limbs. The body in this case is in such state that identification is impossible say the detectives.

They say Denton's arm was broken several years ago. This occurs to too many men. If it is Denton who was found murdered, there is reason to believe that the crime could have been cleared up before this, detectives declare. There is much evidence on hand to work on, but the whole matter is that no one knows whether or not the body is that of the retired mining broker.

There is missing a certain diamond ring which Denton is said to have valued more than any other one part of his personal belongings. It is said that this ring was to tightly banded about his finger that it could not be taken off without amputation of the finger. This is new evidence brought to light through Denton's nephews. The body was found without the ring, and there are no indications that any attempt was made to force a ring from the finger, say the police.

A new theory confidentially held by the investigators last night was that Denton may have murdered a man with whom he quarreled, possibly over financial deals. Fearing that he might be discovered if he buried the body other than in his own home, Denton carried the remains of his victim to the basement of his mansion and there left the body, according to this latest theory. Possibly accidentally caught by Mrs. Peete in the crime, Denton was under indictment for alleged violation of passport regulations, according to Immigration Inspector W. W. Heath.

It is charged Sichofsky entered the United States at Tia Juana without inspection. Sichofsky said he shipped two carloads of walnuts, making four which have gone forward to eastern points this week.

HE DOWNS ROBINS IN INITIAL TILT FOR WORLD TITLE

To Stanley Coveleskie, mainstay of the Cleveland pitching staff in the American League pennant race, fell the duty of pitching the first game against the Brooklyn team in the world's series. How well he handled the job is shown by the box score. He let the hard-hitting Brooklyn team down with five scattered hits. The result of the game was never in doubt. Coveleskie is a Pole and comes from the mining district of Pennsylvania. He belongs to a family of baseball stars. His brother Harry, a left hander, once beat New York out of a pennant in the National league by pitching practically an entire series against the Giants for Philadelphia and winning all his games. Another brother, John, playing in the minors, is an outfielder. He expects to be in the big show some day.

BALAREZO PLANS TO BAR CHINESE

ROBERT ENGLISH PIONEER DIES

CALEXICO, Cal., Oct. 6.—Complete harmony between American residents of border cities and officials of Lower California was apparent today following friendly conferences of Mayor Abbott, Calexico, and other Americans with Governor Balarezo yesterday afternoon when border problems were discussed.

Plans for progressive improvements in the government of the Mexican state were announced by Balarezo and endorsed by the American conference.

Minister of War Calles left Mexico early today for Mexico City, following the appointment of Edward M. Troyo, of Mexico City as treasurer of Lower California.

Among the new policies announced by Governor Balarezo are establishment of a motor vehicle department patterned after the California department, and a Chinese exclusion policy.

According to the announcement the "open door" will be maintained for Chinese desirous of leaving Lower California.

Evidences of graft and superfluous of Chinese were the two reasons given for the new policy.

Upon making Santa Ana his home, Mr. English took up farming, following that occupation up to two years ago. In 1911 he was selected by the city council as street superintendent. He held that office for four years, serving the city well and faithfully. Much regret was expressed at the time of his resignation from that office.

For the past forty-five years Mr. English had been active in the interests of Santa Ana. He was one of the first settlers to come to this part of the country. There were very few who did not know "Daddy" English. For a number of years he was street superintendent here. He was an organizer of the Newbert Protection district.

Mr. English was born in Ireland in 1860, the son of Mr. and Mrs. Thomas English. At the age of twenty-five he came to this country, settling in California one year later. He was married shortly afterward.

Upon making Santa Ana his home, Mr. English took up farming, following that occupation up to two years ago. In 1911 he was selected by the city council as street superintendent. He held that office for four years, serving the city well and faithfully. Much regret was expressed at the time of his resignation from that office.

Mr. English is survived by two daughters, Mrs. Susie Johnson and Mrs. Ida Sovo, and three sons, J. T. W. H. and Fred J. English. Mrs. English died two years ago.

Funeral services will be held at the Smith and Tuthill chapel, Saturday at 2 p. m. Interment will be in Santa Ana cemetery.

Harding was due to arrive in Chicago late today and will rest for a few hours before leaving for Des Moines, where he speaks tomorrow.

There was talk in high councils of the G. O. P. today of trimming down Senator Harding's speaking program and sticking closer to the front porch in Marion.

FOUR CARS OF WALNUTS (Special to the Register.)

ANAHEIM, Oct. 6.—The Anaheim Walnut Growers' Association today shipped two carloads of walnuts, making four which have gone forward to eastern points this week.

It is charged Sichofsky entered the United States at Tia Juana without inspection. Sichofsky said he shipped two carloads of walnuts, making four which have gone forward to eastern points this week.

PRINCESS TONIGHT

SEARCH STAGE MAN
REFUSED RATE BOOST

The following announcement has been made by the State Railroad commission:

C. J. Crosby, who operates an auto stage line between Santa Ana and Huntington Beach, will not be allowed to increase his passenger fares. The Railroad Commission so declared in an order issued today, following a public hearing in Santa Ana. Crosby asked for a 30 per cent increase. He was unable to show that his present rates were not remunerative.

In regard to the foregoing announcement Crosby states that he did not ask for a 30 per cent increase but only for 20 per cent more than the present rates. He is now operating on the same rates that were granted in 1917 and says that with these fares he can not meet expenses at the present high costs.

In regard to the matter of remuneration at the present time, Crosby says that he lost slightly for the first six months of this year and only made a slight profit during the summer tourist season.

His case was presented to the Railroad Commission by Attorney Louis A. Monroe of Los Angeles who was formerly a member of the Railroad Commission. Monroe expressed the belief at the time he was retained for the case, that the presenting of the matter would be a mere matter of form and the increase would be granted at once.

Crosby is at a loss to account for the action of the Commission in failing to grant the increase.

DEDUCTION

Ella—How could you tell that your husband lost money at the races when he said nothing about it?

Stella—"I know he did, because when he came home he began talking about the advantage of saving money."—Exchange.

Of Importance to Investors

CALIFORNIA NATIONAL BANK

Santa Ana, Calif.

You Get the Money

The money that is spent to advertise the goods you buy, comes to you. Once many people had the idea that goods advertised must be more expensive than goods for which no money was spent in advertising.

That is about as sensible as saying it costs more to make goods by machinery than by hand, because you have to buy the machine.

Without advertising you have to sell goods "by hand." Just as a machine will make ten times, or a hundred times, as many articles as can be made by hand; so advertising sells ten times, or a thousand times, as many articles as can be sold "by hand."

For instance: A merchant buys a stock of a certain line of goods. He spends a thousand dollars for these goods. Occasionally some one buys one of them, but most of his thou-

and dollars stays on the shelf. He must sell to make a profit, he must sell to be able to buy more goods, he must make sales to stay in business.

So he divides his profit three ways, one-third for himself, one-third for Advertising and one-third in price reduction for you.

His advertising sells these goods in a few days. He has made one-third as much profit in six days as he would have made in six months if he had not advertised. He has shared his profit with you in return for your giving him your business.

Both of you make money; both of you save money.

There is no use arguing—you KNOW it pays to read advertisements

Bryant Washburn
in "A FULL HOUSE"

A gambler in love, he tried to discard a "queen." But she wouldn't quit the game! And when he won another heart and was just about to flash a diamond—well, you'll say the queen jazzed his cards! A picture that deals to all a royal flush of laughter.

GOOZEMAN-ROSELLI STAGES FAST BATTLE

LOS ANGELES, Oct. 6.—Ernie Gooseman, San Diego, rocked Charley Roselli, Los Angeles, to sleep in the third round of the semi-windup at Vernon last night, in a bout which far outclassed the main event between Willie Robinson and Ever Hammer, Chicago. Hammer earned more than the draw decision he got with Robinson.

Bert Forbes drew with Joe Brown. Veteran Kid Wagner stopped Bert Truby in the fourth. George Lavigne beat Gene Watson.

Kid Layman was even with Marshall Booker, while Danny Sirlos took the measure of Jack Rogers.

WORLD SERIES HOLD UP GAMBLING PROBE

CHICAGO, Oct. 6.—Further indictments of baseball players and gamblers by the Cook county grand jury investigating baseball crookedness today awaited the playing of the world series.

Numerous witnesses are expected to furnish valuable information against at least two National league players who are active in the inter-league classic and rather than interfere with the event the jury decided to rest until these players are free to appear.

GUN BATTLE FEATURES CHASE FOR SUSPECT

LOS ANGELES, Oct. 6.—A two-mile automobile chase, featured with a gun battle between police and an unidentified man early today resulted in the recovery of an automobile belonging to the Employers' Liability Insurance company of San Francisco.

The stolen machine was abandoned by the fugitive who escaped in a rain of bullets after the chase led from the downtown district to Elysian Park.

Safe-blowing tools were found in the machine, the police said.

NEW THEORY IN
DENTON MURDER

(Continued from page one)

the carrying of dirt to the basement,
and the construction of the room
about where the body lay.

These instructions carried out
faithfully, Denton may have cov-
ered the body with the earth and
departed from the city, covering up
his disappearance by remarking to
friends that he was going east be-
cause he was being trailed by irate
enemies.

Of course he would not write any-
one if he wanted to disappear. That
would give him away. Possibly his
arm was in the sling, injured while
committing his deed. Investigations
along this theory may be followed
with various statements ob-
tained, say the police.

A certain man treated in an up-
town hotel by a local physician may
have been Denton, police assert.
This cannot be confirmed, however,
and having nothing more to work on
in that angle, investigators have
dismissed that end of the evidence
introduced.

Mrs. Peete was very nervous on
her trip from Denver to Los Angeles.
If the new theory brought forth is correct Mrs. Peete would
have reason to worry. She would
know of the whole affair, but fearing
Denton should be alive, would
refuse to tell all she knows.

On the other hand, if the body is
that of Denton, she certainly knows
a great deal about the crime.

SAN FRANCISCO, Oct. 6.—Joseph
Rodriguez was arrested here yester-
day charged with the abduction of
Josephine Vilereal Saturday night,
after he was alleged to have attempted
to engage her as an interpreter
to work with him on the Jacob Den-
ton murder case in Los Angeles. The
girl was held as witness. Police
declared they did not believe Rodriguez
had any knowledge of the
Denton mystery more than he could
have secured from newspapers.

Long Beach—R. C. Avery, W. B.
McQueen, Earl Farris, Frank B. Dam-
ron, B. L. Galieher, S. J. Newton, E.
Myers.

Two injured when
AUTO STRIKES TREE

The one instrument that plays

Victor Records perfectly.

Crashing into a walnut tree at the
corner of Main street and Chapman
avenue, an automobile containing two
people, one of whom said to be Francis
C. Hobson, 202 Commonwealth
avenue, Fullerton, was almost com-
pletely demolished. Both occupants of
the car were said to have been
seriously injured.

Witnesses said the automobile was
traveling at thirty-five miles an hour.
The driver had made no attempt to
turn at the corner in question, it was
said, and how the car became un-
manageable is considered a mystery.
Careless driving was said by some
witnesses to have been the cause of
the crash.

The injured were taken to a hospital
at Fullerton. The nature of their
injuries was not ascertained.

Early to bed and early to rise and
you'll rarely meet any regular guys.

When a man marries, he gives
some woman his name 'n everything
else.

The butterfly's colored like cloth
of gold.

The fire fly's colored like flame;

Mosquitoes are colored a dingy
brown.

But they get there just the same.

The political platform is like the
railroad coach platform. It's not
meant to stand on, just as a means
of getting in and out.

FOR SKIN TORTURES

Zemo, the Clean, Antiseptic
Liquid, Just What You
Need. Is Not Greasy

Don't worry about eczema or other
skin troubles. You can have a clear,
healthy skin by using Zemo ob-
tained at any drug store for 3¢, or
extra large bottle at \$1.00.

Zemo generally removes warts,
blackheads, blisters, eczema and ring-
worm and makes the skin clear and
healthy. Zemo is a clean, penetrating,
antiseptic liquid, neither sticky nor
greasy and stains nothing. It is easily
applied and costs a mere trifle for each
application. It is always dependable.

GOOD EVENING

Do not pray for easy lives. Pray to be stronger men. Do not pray for tasks equal to your powers. Pray for powers equal to your tasks. Then the doing of your work shall be no miracle. But you shall be a miracle. Every day you shall wonder at yourself at the richness of life which has come to you by the grace of God. —Phillips Brooks.

ANOTHER SENATOR

There is a probability that in the re-districting of the state by the next legislature into state senatorial districts, a state senator will be assigned to Orange county. Increases in population in the three counties, Orange, Riverside and Imperial, that comprise the Thirty-ninth Senatorial district have been such that in fairness the district should have two senators instead of one.

The state legislature is made up of eighty assemblymen and forty state senators. The census indicates that the new basis for districting will be a population of 85,663 for each state senatorial district and 42,831 for each assembly district. Necessarily, many districts will have a much greater population and many a much smaller population than the population figures used as the basis of calculating districts. It will be the duty of the legislature to make the districts conform to the basic figures as nearly as possible.

The census reports give Orange county a population of 61,375, Riverside county 50,297, and Imperial county 43,383; total, 155,055.

Under the state constitution, no part of a county can be thrown in with all or part of another county to make up a state senatorial or assembly district, and for that reason it is not possible for Orange county to be joined with any part of Los Angeles county. Neither is it possible to cut Riverside county in two, throwing part of the county with Orange and part with Imperial. Since Orange county has the largest population of the three, the logical adjustment will be to assign one state senator to it and the other to Riverside and Imperial counties.

It looks as though these three counties while gaining a state senator may have to be content with three assemblymen, one for each county, as at present. The only possibility that enters into the assembly situation is one that points to two assemblymen for Orange county. In drawing up the re-districting bill at Sacramento a situation might arise by which Orange county, with an excess of 18,544 over the average assembly district population of 42,831, though lacking 24,277 of the total of 85,662 that will be required to make two average assembly districts, could claim two assemblymen. If such a situation should arise, this county, of course, through its representatives at Sacramento, will not be slow to contest for the additional assemblyman.

Nothing has ever arisen in the legislative and political relations of Riverside, Imperial and Orange counties that would give reason at this time for any jealous desire for a division of the senatorial district. Riverside and Orange counties, before and since Imperial county was added to the district, have worked together like twin brothers, and they will continue to do so with added strength should the re-districting plan adopted at Sacramento place them in separate senatorial districts. If by any chance a situation should arise by which Riverside could make a claim for an additional assemblyman, it will find Orange county standing shoulder to shoulder with Riverside.

WHAT'S TO BE DONE?

Legislation that the next legislature should undertake with profit to the residents of California municipalities is legislation that will provide a way for cities to maintain better streets.

Copying an editorial that appeared in the Register recently, in which the Register outlined the general unsatisfactory condition of a large number of Santa Ana streets, the Riverside Press said:

"Readers of the Press need only substitute the names of local streets to make the Register's criticism apply to this city. Our streets, like those in all California cities, are in a deplorable condition. They need to be repaired, and that quickly, but just how that can be accomplished is what is worrying the city administration. What the Register says can be applied with equal force to the streets in every city hereabout."

Commenting upon the Register and Press editorials, the San Bernardino

sun had the following:

"Perhaps there are San Bernardinos who have supposed that only this city is cursed with an absence of pavements where they ought to be and with streets that offend the eye on the part of motorists, if they and their machines escape more serious consequences."

"But there are others. Indeed, as one drives over the state it is generally easy to tell where one crosses a municipal boundary and leaves the country highway for the city streets."

"Public confession is just now made by two of our neighboring cities, one of whom slightly to our surprise, for we had not observed that the River side pavements are so bad, although it must be admitted that the Santa Ana plea of guilty has plenty upon which to be based."

"We will not pause to list the streets in San Bernardino. It would really be difficult to specify. It may be true that some are worse than others, but all of them are a lot worse than they ought to be."

Again the Register asks the question that ended its editorial that brought forth the Riverside and San Bernardino comment: "Is there no way out of the dilemma? Are we going to throw up our hands and keep on saying things out loud every time we get into an automobile?" There is no use saying a thing is bad unless thereby you open up the consideration of remedy.

The defense of Santa Ana's street department is legitimate. It has no money with which to do the work. It is confidently expected that the charter that is to be submitted to voters of this city in the course of a few weeks will make provision whereby ample funds for street work will be available. Through this charter Santa Ana hopes to find the way out of its chinkholes.

But a charter for Santa Ana will not be a remedy for conditions that prevail in other municipalities. Only general laws allowing larger levies for street work will prove a solution in many cities. Should the proposed charter for any reason fail or pass, Santa Ana will have to seek its remedy either in amendments to general laws, or by establishing a city assessor department, a step hitherto considered by the city trustees to be inadvisable. Those cities that have inadequate charter provisions will have to secure whatever amendments are needed.

One thing is certain, and that is that taxpayers in every city afflicted with bad streets want better streets, and they are willing to pay the bills. It remains for the state and the cities to unravel legal entanglements and provide more liberal financial support for street departments.

An English novelist blames the American husband for family rows. May be the man does start the argument, but everybody knows who finished it.

One of the things a prosperous American can't figure out is how poverty-stricken Italy can pay \$35 a ton for our coal.

We're not for this business of shooting at the moon. One of these nights some scientific Red may blow it up, and then what'll we do for moonlight?

Virtue is its own punishment. The more vigorously political candidates condemn the use of money for campaign purposes, the less money they can get for their own campaigns.

Carelessness Costs
—San Bernardino Sun—
Are you aware of the fact, Mrs. Housewife, that if you are a patron of any of the milkmen, you pay for an extra glass bottle every month? Indeed, figured exactly, the milk distributors figure they must buy 12 new bottles for each customer served with one bottle a day during the month.

Why? Carelessness—or cussedness, and the latter is not a negligible figure. For in 27 cities where the matter has been followed up, it was found that junk buyers did a regular business in buying stolen milk bottles. The carelessness element, of course comes from breakage, sometimes by the handlers, but always at the expense of the consumer, for it is charged up as a regular part of the expense of the business and "all of us" pay.

This situation obtains locally as well as elsewhere. The largest distributor in San Bernardino recently abandoned the use of 1-4 pint bottles for cream, and delivers 1-2 pint bottles as the minimum. It seems that many mothers thought those small 1-4 pint bottles were so cute for the children to play with that it almost required a special factory running on full time to keep up the stock. Now nobody can buy that quantity of cream.

One of these days a genius will invent a non-returnable milk bottle, made of oiled paper or some similar material, and put the glass milk bottles out of use as cheaper, more sanitary, and entirely eliminating the element occasioned by the activities of the junkman or the need of plying for the baby.

Process of Spirit
—Long Beach Press—
Americanizing aliens should not be treated as a mechanical process. Merely learning a given number of facts does not make an alien an American at heart. A foreigner might be able to quote the Constitution and the Declaration of Independence verbatim; might know the names of all the Presidents and all the states, and might be stuffed with all sorts of information about this country, and yet be an anarchist or a Bolshevik at heart.

Americanization, in its true significance, is a process of the spirit. It should be so deemed by all who undertake to inculcate it into others. The instructional work in Americanizing should be done by those who apprehend this spiritualized quality of Americanism and who themselves are saturated with it.

Legislation that the next legislature should undertake with profit to the residents of California municipalities is legislation that will provide a way for cities to maintain better streets.

They need to be repaired, and that quickly, but just how that can be accomplished is what is worrying the city administration. What the Register says can be applied with equal force to the streets in every city hereabout."

Commenting upon the Register and

Who Is Boss?

Fresno Republican

A building trades lockout is threatened in San Francisco, not except incidentally, over wages and hours, but primarily over the only thing on which men really fight, which is the question "Who is boss?" Over Monday, men may be angry enough to spend three dollars to win one, but only crazy men would keep it up until it cost ten for one. But over "who is boss" the only limit is exhaustion. So the building employers are voting between the "open shop" or a lockout, rejecting arbitration as an alternative, while the union representatives say "Since it will be settled around a table finally, why not settle it that way now?"

Everything except "who is boss" can be settled "around a table." But that question means fight or surrender. And beneath all the camouflaged misnomers of "open shop" and "closed shop," this is the real issue. The "open" shop is not really open, and the closed shop is not really closed. Moreover, the question whether they shall be open or closed is not what the disputants are caring about or fighting over. The right of a man not to join the union, and to work if he does not, may be real fight, but it is not the right that the "open shop" employer is fighting for. He would not tie up his whole shop to protect any other personal right of an occasional employee, and he would not tie up for this right, if only it were involved. Similarly, the right to keep non-union men from working is not what the unions are fighting for. Except in moments of anger, when an actual war is on, they care very little about it. These are mere "talking points." What the real dispute is over is who shall be boss. The only reason the employer wants what he miscalls the "open" shop is that he thinks the workers will be boss in it. The only reason the unions want what the employer miscalls the "closed" shop is that they think they will be, to an extent boss in it. That is all.

And if we may, for a moment, use "highbrow" technical language, the only reason either side thinks that

Arguments Are Presented Here On Proposed State Legislation

Statements for or against any of the amendments or initiative or referendum measures to be voted on at the November election will be published under this heading. The Register desires that the questions be presented fairly and fully. Brevity has strength, and repetition should be avoided. Publication shall not be construed as an expression of the views of The Register.

Mr. J. P. Baumgartner,
Editor Register,

Dear Sir: I have your request for an expression of my opinion on the proposed Community Property law. I confess I am loath to write my first newspaper article on a subject that may mean a controversy with the fair sex, who are always supposed (and should be allowed) to have the last word.

I note by the printed literature that is being circulated by the Community Property committee, (Southern section) of the Women's Legislative Council of California, that they charge the banks with being the bitterest enemies of the bill, and that their position is mercenary. For this reason, I am confining my remarks to that feature of the bill.

In one of their circulars appears the following question: "Do most of the banks and trust companies act as administrator and executor?" Answer: Yes. There are in California about 1017 banks and trust companies. The State Superintendent of Banks is authority for the statement that only seven trust companies, twenty-six trust departments of departmental banks, ten trust departments of National banks—a total of forty-three—are authorized to act as administrator or executor of estates, and that none but those so authorized can or do act. Only one of these is in Orange county, and that is the writer is not directly or indirectly connected with. Surely, the proponents of the measure do not mean to so grossly misrepresent facts.

Nearly all of the answers affecting credits, given in this circular, are, in the opinion of the bankers and their attorneys, as erroneous as in the instance above cited where definite facts are obtainable. Another quotation: "Why should trust companies and trust departments of banks lead a fight against this measure?" Answer: They are corporations not interested in human or individual rights, nor in simple justice as such." (Black face type is mine). This answer should condemn the entire circular and the methods of those responsible for its publication. It is an atavism; a survival of a former age. It has no place in modern life. If merchant and customer can get along together with either being "boss," so can contractor and carpenter. When they both find this out, there will be nothing left to fight over. For over wages and hours men do not fight. They bargain, and agree, disagree or arbitrate.

Another quotation: "Why should trust companies and trust departments of banks lead a fight against this measure?" Answer: They are corporations not interested in human or individual rights, nor in simple justice as such." (Black face type is mine). This answer should condemn the entire circular and the methods of those responsible for its publication. It is an atavism; a survival of a former age.

Another quotation: "Why should trust companies and trust departments of banks lead a fight against this measure?" Answer: They are corporations not interested in human or individual rights, nor in simple justice as such." (Black face type is mine). This answer should condemn the entire circular and the methods of those responsible for its publication. It is an atavism; a survival of a former age.

My advice is to vote down the proposed new law until such a time as it can be properly modified.

Very respectfully,

A. J. CROOKSHANK,

President First National Bank.

PERSONALS

Mrs. Cora Coe left this morning on the Santa Fe for Rapid City, S. D., for an indefinite stay.

A. G. Wild, trainmaster for the Santa Fe, was in this city on a business visit today.

R. H. Woods left on the S. P. for San Francisco today.

Mrs. B. E. Turner is leaving tomorrow on the S. P. for Chicago.

Mrs. C. L. Valentine has gone to Weatherford, Okla. She left today on the Southern Pacific.

Mrs. M. F. Stroschein was a passenger on the S. P. for Phoenix, Ariz.

Mrs. J. D. Phillips left on Monday for Grant Pass, Oregon, to be gone about a month. She will spend the time visiting relatives.

Mrs. Albert Brown of Orange, who is a patient at the Santa Ana hospital, is reported to be improving nicely.

Mr. and Mrs. W. D. Baker arrived home last evening after taking their son, George, north to attend Stanford University. Mr. and Mrs. Baker visited Berkeley, San Francisco and Santa Clara, where they visited Mr. and Mrs. J. E. Baker. Mr. Baker is a brother of W. D. Baker and Mrs. Baker will be remembered as Mrs. Beren Walker, formerly of this city. Mr. and Mrs. Baker also stopped at Santa Cruz and enjoyed a visit to Sequoia Park.

The girls of St. Elizabeth's Guild hope to have "Odd Fellows' Hall" well filled.

When on the dark October night, "Mid bobbing apples and pumpkins" light.

They entertain quite informally, true.

A party of friends, including you. The trifling sum of fifty cents will be charged alike to ladies and gents.

To help defray expense."

Roosevelt P. T. A. Meets

At the regular meeting of the Roosevelt P. T. A. held in the kindergarten room of the school yesterday afternoon, there was a large attendance. After repeating the Lord's Prayer, the regular business session was held. Mrs. John Clarkson then gave two well-selected and interesting readings from Eugene Field and J. Whitcomb Riley, that were greatly appreciated by all.

Lyle Roberts played a beautiful cornet solo, with Harry Garstang playing the piano accompaniment.

Mrs. Anderson spoke on a number of bills coming up to be voted upon in the November elections, among them being the Japanese question, the Harris Bill and the Community Property referendum.

Mrs. R. J. Brown presented each of the teachers with a beautiful bouquet of dahlias, as well as one to Miss Nell Winslow, the president of the Roosevelt P. T. A.

Punch and wafers were served as refreshments during the afternoon.

The kindergarten of the school received the fern and basket for having the largest number of mothers present at the meeting.

High School P. T. A. to Meet

The High School P. T. A. will meet tomorrow afternoon at 3 o'clock in the music room of the school. Mothers and their friends are cordially invited, particularly mothers of the freshmen. Features of the program will be a talk by Rev. J. A. Stevenson on "What I Would Like the High School to do for My Child," followed by the opposite side of the question, "What I Would Like Your Child to Do for the High School," presented by D. K. Hammond, principal of the school, and W. M. Clayton will speak on "The Educational Amendment."

Speaks at Banquet

Dr. Mary E. Wright of this city, addressed the members of the Women's Osteopathic Club of Los Angeles at a banquet given last evening in the "Mary Louise" banquet room in the Brack Shops, in Los Angeles. Dr. Wright's subject was "Chronic Intestinal Indigestion of Children," on which subject she gave a most interesting talk. Other osteopaths of this city present at the banquet were Drs. Hester Oldfield and Peryl B. Magill.

W. C. Please Take Notice

The regular Relief Corps meeting will be held Thursday afternoon, October 7, at 1 o'clock sharp. As the inspector, Alpha G. Daul is to be present and wishes all members to be at this meeting, a large attendance is expected.

Mrs. M. F. Stroschein was a passenger on the S. P. for Phoenix, Ariz.

Mrs. J. D. Phillips left on Monday for Grant Pass, Oregon, to be gone about a month.

Rev. John Oliver as pastor of the First M. E. church here, and of Rev. F. W. Rollins as pastor of the Richland Avenue church, by the Methodist Forty-fifth Annual Conference at Long Beach.

With the reappointment of Rev. Oliver, he begins his third year as shepherd of his flock in Santa Ana.

Among other appointments for Orange county was that of J. A. Geissinger, of Anaheim. Rev. Geissinger has recently been in area work for the Centenary. He is an author of considerable note, and has a wide reputation as an orator.

Mr. and Mrs. W. D. Baker arrived home last evening after taking their son, George, north to attend Stanford University. Mr. and Mrs. Baker visited Berkeley, San Francisco and Santa Clara, where they visited Mr. and Mrs. J. E. Baker. Mr. Baker is a brother of W. D. Baker and Mrs. Baker will be remembered as Mrs. Beren Walker, formerly of this city. Mr. and Mrs. Baker also stopped at Santa Cruz and enjoyed a visit to Sequoia Park.

The girls of St. Elizabeth's Guild hope to have "Odd Fellows' Hall" well filled.

When on the dark October night, "Mid bobbing apples and pumpkins" light.

They entertain quite informally, true.

A party of friends, including you.

The trifling sum of fifty cents will be charged alike to ladies and gents.

To help defray expense."

Roosevelt P. T. A. Meets

At the regular meeting of the Roosevelt P. T. A. held in the kindergarten room of the school yesterday afternoon, there was a large attendance. After repeating the Lord's Prayer, the regular business session was held. Mrs. John Clarkson then gave two well-selected and interesting readings from Eugene Field and J. Whitcomb Riley, that were greatly appreciated by all.

Lyle Roberts played a beautiful cornet solo, with Harry Garstang playing the piano accompaniment.

Mrs. Anderson spoke on a number of bills coming up to be voted upon in the November elections, among them being the Japanese question, the Harris Bill and the Community Property referendum.

Mrs. R. J. Brown presented each of the teachers with a beautiful bouquet of dahlias, as well as one to Miss Nell Winslow, the president of the Roosevelt P. T. A.

Punch and wafers were served as refreshments during the afternoon.

The kindergarten of the school received the fern and basket for having the largest number of mothers present at the meeting.

High School P. T. A. to Meet

The High School P. T. A. will meet tomorrow afternoon at 3 o'clock in the music room of the school. Mothers and their friends are cordially invited, particularly mothers of the freshmen. Features of the program will be a talk by Rev. J. A. Stevenson on "What I Would Like the High School to do for My Child," followed by the opposite side of the question, "What I Would Like Your Child to Do for the High School," presented by D. K. Hammond, principal of the school, and W. M. Clayton will speak on "The Educational Amendment."

Mr. Pohl has made repeated efforts to reach his daughter by mail and to send money to her, but letters and money orders were returned. He also communicated with other relatives in Bohemia but they too had lost trace of his daughter.

In her letter Miss Pohl says that conditions in India and near Vienna are bad. Foodstuffs are very scarce and very high in price. Clothing and fuel are almost unobtainable. She is impatient to return to America, from which she has received no direct word in five years.

Mr. Pohl has written to the State Department at Washington asking that an effort be made to secure passports for Miss Pohl, who is an American citizen, as is her father.

SAYS WOMEN ERRATIC UNTIL THEY ARE WED

LONDON, Oct. 6.—Dr. Josiah Oldfield, a popular writer and speaker on social subjects, who has been making an analytical, psychological study of suicide statistics, has attempted to interpret the suicide figures for America lately printed here.

With special reference to the number of women suicides in America, Dr. Oldfield said:

"They emphasize my point that every woman needs a man to lean upon; that until she is safely anchored in wedlock is a woman an unstable vessel and liable to capsize; that her security, peace and happiness lie in wifehood, motherhood and homehood."

"It is a sad pity that while the world was mad with rejoicing over the armistice and the end of the ghastly nightmare of war, many women went mad through the pangs of guilty conscience when they knew that their husbands were returning and their infidelity would be discovered."

"However, the statistics of suicides from America are only for last year and therefore are of little value in building up sex theories. We must not forget that last year was the year of American men returning from the war and, therefore, among men there would not be so many left who would want to commit suicide."

The two plan to meet local business men in the state's commercial centers to interest them in the future of mining. Prospects look bright for the industry, they said, except for gold, the output of which has declined until the danger point almost has been reached. The reason for this is that costs of operation have doubled while the selling price of gold remains the same, as fixed by law.

The two plan to meet local business men in the state's commercial centers to interest them in the future of mining. Prospects look bright for the industry, they said, except for gold, the output of which has declined until the danger point almost has been reached. The reason for this is that costs of operation have doubled while the selling price of gold remains the same, as fixed by law.

After an application of "Danderine" you can find a fallen hair or any dandruff, besides every hair shows new life, vigor, brightness, more color and thickness.—Adv.

BIRTHDAY PARTY AT REICH HOME

FRIENDS MOURN DEATH OF MARTIN RASMUSSIN

POSTPONE P. T. A. MEETING A WEEK

H. C. TRUEMLAR IS BADLY INJURED

TEACHERS GUESTS OF ORGANIZATIONS

COSTA MESA, Oct. 6.—Miss Evelyn Baumard entertained the Loyal Workers Sunday school class at her home Saturday evening. The early part of the evening was spent with a business meeting after which games and music caused the evening to pass all too soon and last but not least came the delicious refreshments which were greatly appreciated by all present. Those who enjoyed the evening were: Misses Mary Smith, Perla Best, Alice King, Lelia and Helen Reich, Alice DeBow and Messrs. Ed Bennett, John Seigle, Carl Beltz, Arden Long, Winfred Whitehead, Arthur Ackland, Perry Maynard, Clarence Prinslow and Mr. and Mrs. Harry Clark, Mr. and Mrs. L. P. Bauman and the hostess, Miss Evelyn Bauman.

Miss Clara Maynard, who is teaching in Los Angeles, spent the week end with her parents, Mr. and Mrs. D. F. Maynard.

F. R. Finch of Nebraska has purchased a ten acre piece of land on Victoria Ave., through the real estate agency of Mrs. Sarah Parish.

The social given by the Friday Afternoon Club on the evening of Sept. 25th, was well attended by members and friends. Vocal, violin and piano music was rendered by Mrs. Napier, Mrs. Emil Goepper and Mrs. Quinn. Cards and games also enlivened the evening. Bounteous refreshments were served at the conclusion of the games after which to the inspiration of Mr. Goepper's violin, some old fashioned dancing was given. A very pleasing musical number was a song by a quartet consisting of Mr. and Mrs. Dodge and their daughters, Mrs. Napier and Mrs. Dysart. Those who were present are looking forward to another social evening soon.

Mr. and Mrs. Donald Gibson enjoyed a visit last week from Mr. Gibson's sister, Miss Elsie Gibson, who is attending university in Los Angeles.

Mrs. Mary E. Picket, of Fullerton, visited with her granddaughter and family, Mr. and Mrs. Harry Boyd, last week.

Miss Helen Reich celebrated her birthday Wednesday evening by inviting a crowd of young people to spend the evening with her. The evening was spent in games and music, after which delicious refreshments were served. Every one present declared they had had an unusually good time. Those present were: Misses Evelyn Baumard, Lelia Reich, Beulah and Bernice Ellis, Perla Best, Mary and Birdie Butrum and Miss Seaman of Santa Ana; and Messrs. Ed Bennett, Winfred Whitehead, George King, David Butrum, Arthur Flanagan, John Seigle, Arden Long, Perry Maynard, Clarence Prinslow and Charles Watson of Santa Ana.

A number of Costa Mesa people attended the Methodist conference at Long Beach last week. Those who went from here were: Mr. and Mrs. D. Gibson and daughter, Doris; Rev. and Mrs. L. O. Bostwick and son, Maurice; Mr. and Mrs. J. R. Walker, Miss Mary Stearns and Miss Mary Smith.

W. Rountree had charge of the evening service Sunday. A good sized crowd was present to hear Mr. Rountree preach and all enjoyed the sermon very much.

Mr. and Mrs. Du Bow and family have moved to Paulinario.

Arthur Ackland spent Saturday evening at the home of Mr. and Mrs. L. P. Bauman and he and Miss Evelyn Baumard motored to Seal Beach Sunday morning to attend a beach party.

The little Misses Modena and Irma Lawson celebrated their birthdays Friday afternoon when about twenty-four of their little friends gathered at their home after school and played games and had their pictures taken. Refreshments of delicious lemonade, cake, candy, and cookies were served. Those present were little Misses Veda Snow, Lillian Odisho, Mary Stearns, Martha Spaulding, Cally Lawson, Eva Wilson, Grace and Wilma Patterson, Mary Smith, Ruth Bradley, Mary and Lucille Boyd, Alma, Ogden, Messrs. Roy King, Maurice Bostwick, Harold Long, Robert Snow, Harold and James Smith, Harry Bradley, Glen Wilson, Donald Stearns, Marion Baker and the little hostesses, Modena and Irma Lawson.

William Buttram, Henry Davis and Ernest Deitrich of Brea, were guests at the Buttram home Sunday.

A party consisting of Dr. and Mrs. Frank Ashmore, Miss Hazel Thrasher, Miss Margaret Martin and James Nailer enjoyed the afternoon and evening at Long Beach, Sunday.

The Woman's club will hold the first meeting of the year following the election of officers, after a three months' vacation. The incoming officers are as follows: Mrs. James Macklin, president, Mrs. Ben Caloway, vice-president, Mrs. Greenwald second vice-president, Mrs. Ilian Shaw, recording secretary, Mrs. Callie McDowell, Federation Secretary and Mrs. Frank Isbell treasurer. They will succeed Mrs. Jas. Bishop, president; Mrs. Blatz, first vice-president; Mrs. Greenwald, second vice-president; Mrs. George Thomas, recording secretary; Mrs. J. F. Simpson, Federation secretary, and Mrs. Ben Calloway, treasurer.

The meeting will be held on Thursday, October 7, at the home of Mrs. James Bishop.

Mr. and Mrs. James Bishop and family are contemplating moving to Huntington Beach as soon as housing difficulties can be adjusted. At present the family is still in Buena Park while Mr. Bishop makes the trip daily from his home to the office.

SAN FRANCISCO, Oct. 6.—Gradual reductions in food prices were continuing on the Pacific coast yesterday.

In San Francisco Secretary Frank B. Connolly of the Retail Grocers' Association announced that flour would drop 40 cents a barrel wholesale yesterday and the retail price would drop from \$3.82 to \$3.79 for a 49-pound sack.

In Portland and San Francisco quantities of Java sugar have been thrown on to the market. In both places it is retailing at 13 cents per pound which is considerably cheaper than other grades of sugar offered.

Portland dealers said that refiners of Java sugar are rushing their stocks onto the market in an effort to unload before the price goes down still further.

Folks—can you really afford to own a car when you can rent one without driver for as little as \$3 a day? 7½ cents a mile. See Copson, 411 W. 4th. Phone 1426.

Dr. Magill, Osteopath, Phone 958-W. For lower rents and food a-penny. Vote YES, Amendment Number Twenty.

FRIENDS MOURN DEATH OF MARTIN RASMUSSIN

POSTPONE P. T. A. MEETING A WEEK

H. C. TRUEMLAR IS BADLY INJURED

TEACHERS GUESTS OF ORGANIZATIONS

ANAHEIM, Oct. 6.—Friends of Martin Rasmussen of this city, are mourning his death, which occurred yesterday morning after an illness which extended over a period of about a year.

The deceased was a retired rancher and came to this city with his family from Oaks, No. Dakota, about two years ago, purchasing an orange grove home on South Walnut street.

He leaves aside from the widow, two daughters, Agnes and Margaret, who reside at home.

Funeral arrangements have not yet been made and announcement will be made later.

VILLA PARK, Oct. 6.—Owing to the fact that Friday will be Children's Day at the Orange County fair at Huntington Beach, the Parent-Teachers' association has postponed its evening meeting from Friday, October 8, to Friday October 15.

The Villa Park Farm Center held a meeting on Thursday which was well attended and in which much interest was shown. As W. W. Perry was absent, H. D. Nichols acted as chairman of the meeting. Farm Advisor Wahlberg of Santa Ana and Mr. Horn of Huntington Beach were present. The County fair was discussed and a committee appointed to plan and arrange a display of fruit and vegetables for this district. Those on the committee were H. M. Gail, E. J. Brown, G. G. Caldwell, Mrs. W. W. Perry, Mrs. H. M. Gail and Mrs. E. J. Brown. Power rates and fertilization were also discussed at the meeting.

Mrs. H. T. Thomson entertained her Sunday school class in their class room on Thursday evening. After spending an hour in study the hostess served her class with ice cream and cake.

S. M. Bathgate returned on Friday from Oxnard where he had been for a few days.

Miss Margaret Knuth celebrated her tenth birthday on Friday evening by having Misses Lois Tomson, Floy Stevenson and Edith Damewood of Orange spend the night with her. They all said they had a good time.

Mrs. H. T. Thomson, Conger Thomson, Willard Smith and Leon Whitsell returned on Friday from a two weeks hunting and fishing trip. They had a fine time.

Dr. and Mrs. Wm. Poppelwell attended the meeting of the Avocado association at Pasadena, Saturday.

Miss Louise Ryan, who is attending the State Normal school at Los Angeles, spent the weekend-end with her parents Mr. and Mrs. W. W. Ryan.

Mr. and Mrs. E. W. Squires drove up to Claremont, Saturday, and brought their daughter, Margaret home to spend Sunday with them.

Mr. and Mrs. W. A. Knuth and daughter, Barbara, drove to Owensmouth, Saturday, to visit with Mr. and Mrs. E. B. Peers over Sunday.

Margaret Knuth stayed with her grandmother Mrs. Ellen Holditch until her parents returned.

Mr. and Mrs. L. O. Hanselman spent Saturday afternoon and Sunday at Compton with relatives.

The beautiful garden at the F. D. Collins home was the scene of the wedding of Miss Caroline Seybert and Roger N. Sherman of Long Beach. The ceremony was performed at high noon on Saturday by Rev. L. P. Hitchcock. The happy couple will live on North Dustin street. Mr. Sherman is running the rock crusher in Santiago Creek on the Centre Drive road.

A number of Villa Park young people attended the funeral, last Monday, of Mrs. Timothy Daly, who passed away recently at her home just south of Buena Park. Mrs. Daly was in the vigor of life and health and it was a great shock to many that she should be called at this time.

Mrs. Daly leaves a husband, two daughters, one son and a brother. The sympathies of the community go out to the bereaved in their distress.

Mr. and Mrs. Sam Little motored to La Canada on Sunday where they were overseeing the construction of the cabin they are having built for summer use.

Miss Anna Lubkeman, custodian of the local library, made a trip in company with her family to Little Bear Saturday evening, returning Tuesday morning. They expected to catch many trout and went prepared for cold weather as they had been advised that the nights in the Little Bear country have grown very snap-y.

Miss Beatrice Bushnell is attending the University of Southern California, visited relatives just east of Buena Park over the weekend.

Students of the Fullerton Union high school are circulating a petition for the purpose of introducing dancing into the school. They feel that many pupils who favor dancing would prefer the carefully supervised dancing at the school to other places if it were permissible. The petition is to be presented to the trustees at the next board meeting.

Miss Marie Crandall and Miss Nila Fairbank visited their homes in Los Angeles, and Santa Ana, over the week end.

A party consisting of Dr. and Mrs. Frank Ashmore, Miss Hazel Thrasher, Miss Margaret Martin and James Nailer enjoyed the afternoon and evening at Long Beach, Sunday.

Miss Florence Brubaker and her friend, Miss Emma Shuck of Los Angeles spent Sunday with Mr. and Mrs. M. G. Brubaker.

Mrs. G. M. Brubaker and daughter, Dorothy, Mr. Fen Field of McPherson and Miss Elizabeth Lee, were visitors at Riverside on Sunday. They took dinner at the Glenwood Mission Inn and spent the afternoon in looking over the art exhibit there.

Mr. and Mrs. H. D. Nichols and sons, and Miss Sue Collins, visited in Pasadena on Sunday with Mr. Nichols' cousin, Miss May Nichols.

Mr. and Mrs. Roy Warren and son Jimmy, spent Sunday at San Juan Capistrano.

Misses Louise Ryan and Nellie Adams and Misses Claude Ryan and Earl Ball drove to La Canada and spent Sunday with Mr. and Mrs. Horace Ball.

Mr. and Mrs. E. E. Carriger and son, George, of Orange, were guests at the home of Mrs. Mrs. Ellen Holditch on Sunday afternoon and evening.

Travel on the big motor stages to Los Angeles. Cars leave on regular half-hourly schedule daily. Motor Transport Company's station, 5th & Sycamore streets.

Fat That Shows Soon Disappears

H. C. TRUEMLAR IS BADLY INJURED

TEACHERS GUESTS OF ORGANIZATIONS

ORANGE, Oct. 6.—Hugo C. Truempler, a cement worker of 334 North Center street, who was severely injured when he was thrown from his motorcycle Monday night was still alive today although in a very critical condition. Truempler was thrown from his motorcycle at the corner of Center street and Almond avenue, his head striking a telephone pole, knocking him unconscious.

According to information secured by Marshal Warner of Orange, Truempler was riding north on Center street when he encountered a Plaza Market delivery truck driven by Roy Miller.

The two vehicles came together at the intersection and the motorcycle was forced against the west curb where Truempler was thrown with great force against a telephone pole. He is believed to have suffered a fracture of the skull.

According to information secured by Marshal Warner of Orange, Truempler was riding north on Center street when he encountered a Plaza Market delivery truck driven by Roy Miller.

The two vehicles came together at the intersection and the motorcycle was forced against the west curb where Truempler was thrown with great force against a telephone pole.

A woman's fondest hope is to stay young. She often resorts to paints, powders and cosmetics to hide her years. Some women pay large sums to so-called "Beauty Doctors" in the belief that money will buy youth. Others wear girlish dresses, thinking they can fool the world about their age. But no one is deceived. The more you try to hide your age, the more it shows.

There is but one thing that holds old age back, and that is health. Sickness and weakness bring old age early in life. Dr. Pierce's Favorite Prescription is a building-up medicine for women. It makes them healthy and strong when they suffer from women's troubles. It keeps them looking young by keeping them well. It is a woman's tonic for the frail, the delicate and those who are nervous, dizzy and who have backache and dragging down pains. Some women took it years ago and have felt young and well ever since. Dr. Pierce's Favorite Prescription is altogether vegetable and without a particle of alcohol. It is safe to take. Try it now. In tablet or liquid form at all druggists, or send 10c for trial package of the tablets to Dr. Pierce's Invalids' Hotel in Buffalo, N. Y.

REALISM MEANS HONESTY ONLY

"Realism in religion is an honest treatment of religion, nothing more. There is no excuse for any other kind of treatment. Salvation is not artificial. God is not outside the process of human life."

These words, perhaps, were the most emphatic spoken last night in a very fine address delivered to the Brotherhood of the First Congregational church by Dr. Carl S. Patton, pastor of the First Congregational church of Los Angeles, one of the foremost men of the Congregational church organization.

Dr. Patton's address was on "Realism in Religion," and was first delivered last July at Boston at the International Congregational Council. Rev. P. F. Schrock, pastor of the First Congregational church here, heard the address in Boston, and was deeply impressed with its sincerity and thoughtfulness, and it was through him that the speaker was here last evening. The address followed an excellent dinner served by the ladies of the church.

"There is a habit of mind in all of us," said Dr. Patton, "that brings us back to reality after we have stepped off for a time into some realm of make-believe. There is some unreality in all of us, but it is in religion mostly that we have fits of unreality. Often when one goes to church he feels that there is a certain air of impressiveness that makes him feel that something—something good, to be sure—is being put over on him.

"Lots of people look on religion in an uncanny way. Some way it smells of death and the judgment day. They do not feel toward God in a real way, not in the way that, for instance, they know the price of a new suit of clothes or a note at the bank. Too many think of religion as of the distant past or the distant future. How are we going to make religion real when it is painted as a rainbow with one end in Palestine and the other in heaven?"

"What we know about business, we know by personal experience. We get the idea that what we know about religion is secured in some indefinite way. One of our faults is the fatal ease with which in presenting religion we substitute words for the things that lie behind them. We use the technical terms of religion, like 'blood of Jesus,' 'inspiration of the Bible,' without giving a definite meaning. Religion too often is like a fog in which we wander. We are tempted to use phrases that meant a good deal 300 years ago when the Bible was translated, but which are not very live terms in today's language.

"To make religion real, we must tear away this veil that has been wound around religion. This is a day of realism. Art, poetry, education and philosophy have all felt it. We have come to the time when people are impatient of all disguises. They want the real thing.

"What can we do? First, we can make them think. Religion is the open door to the answer of all great questions. Real religious questions are never settled. They must be answered by every person for himself. The disputed points are the live points, and we can't get people to thinking by steering away from disputed points, as too many preachers do. Let us use words that people's inspiration?

"We can be honest. A man can get so used to saying and thinking in the way he is expected to think that he shades off into a realm that is not himself. There is no success excepting in honesty.

"And if people get more good out of reading Whittier than they do out of the Book of Esther, or more inspiration from Browning than they do out of the pessimistic Book of Ecclesiastes, why not acknowledge God's inspiration?

"Realism in religion is an honest treatment of religion. The ideal that is stirred in the heart of each person is a real ideal."

A new million dollar terminal for bulk handling of grain has been finished at Oakland. It is stated that this plant is equipped for handling 200 cars of grain or rice a day.

Tokay growers of the Lodi section have lost heavily because of car shortage. Growers, who had hoped for \$90 per ton are now offering at \$75 for dehydration. The shortage of cars is said to be largely due to many of the cars being used by the wine grape growers.

BABY NAMED LYDIA E.

Because Her Mother Was
Made Well by Lydia E.
Pinkham's Vegetable
Compound.

Brooklyn, N. Y.—"I could not write all my thanks for your blessed medicine, Lydia E. Pinkham's Vegetable Compound. I was a very bad condition and had lost two babies. One of my good friends told me about Lydia E. Pinkham's Vegetable Compound and after I had taken eight or ten bottles I felt like a different woman. I kept on taking it until my baby girl was born last month and we have had her christened Lydia Elizabeth. I wish you to publish my letter to benefit other women who are suffering as I was"—Mrs. KATHERINE KURZBACHER, 1086 Manhattan Avenue, Brooklyn, N. Y.

Women who suffer from any feminine ailment should not lose hope until they have tried Lydia E. Pinkham's Vegetable Compound.

The many convincing testimonials constantly published in the newspapers ought to be proof enough for women who suffer from those distressing ills peculiar to their sex that Lydia E. Pinkham's Vegetable Compound is the medicine they need.

Canadian Securities Comparatively Stable

GOVERNMENT AND CORPORATION ISSUES OF OUR NEIGHBORING DOMINION FIND FAVOR IN THE UNITED STATES

Government Emerged From War In Sound Financial Position—No Further Government Financing This Year But High Grade Corporation Issues Expected To Be Floated Here.

Canadian securities, including government and corporation issues, have maintained a comparatively stable position throughout the war and since, both in Canada and in the United States, where a large amount is held. This reflects the skilled handling of Canadian government financing during the war and the relatively strong financial position of the country when it emerged from the conflict. During the war Canada issued war loans amounting to \$2,353,995,650, of which approximately \$2,000,000,000 is outstanding. It also advanced to European countries \$240,350,843 as follows:

Great Britain	\$302,605,094
Great Britain (advances chartered banks)	100,000,000
France	5,519,047
Roumania	22,273,467
Belgium	1,734,295
Greece	8,118,940
Total	\$340,350,843

On March 31, 1920, gross debt of the Dominion of Canada was \$3,014,483,774, of which \$1,073,537,461 constitute revenue producing debts. During and since the war Canada has floated six loans aggregating \$1,050,000,000, all of which were largely oversubscribed.

Since the armistice Canada has issued a considerable amount of corporation loans, a large part of which found their way into the hands of Americans with whom they find favor because of the premium being paid for United States money as well as the sound character of the investments themselves. During August, Canada issued \$10,000,000 provincial, \$3,404,644 municipal and \$3,400,000 corporation bond, totaling \$16,804,644 against \$6,571,124 in August, 1919.

Now that more than half of Canadian railroad mileage is under government control and rates have recently been increased, the securities of these companies are likely to become unusually popular both in Canada and the United States. In May of this year Canadian National Railways sold \$15,000,000 fifteen-year 7% sinking fund equipment trust certificates through local bankers. These bonds were offered to public at 99 and interest to yield about 7.10%. They were quickly absorbed by American investors and are now selling close to par.

Canada will not do any borrowing this year, according to Minister of Militia and Defense, Githrie, in a recent interview published in The Wall Street Journal. This will leave the field open for extensive corporation financing and some choice issues may be floated in this country.

MERCHANTS AND MANUFACTURERS TAKE FIRM STAND AGAINST MOVE FOR CLOSED SHOP CITY

Business Men Condemn Plan of Radicals to Strangle Industrial Activities

MANY SPEAKERS HEARD

Not Opposed to Unions But Against Combinations of Unions

The closed shop movement in Santa Ana "shall not pass"—if the Merchants' and Manufacturers' Association can prevent it.

Declaring themselves favorable to craftsmen organizing unions but opposed to union of such organizations for the purpose of promoting a closed shop program, business men of the city at the regular monthly director-member smoker meeting of the M. and M. at James' last night passed resolutions that place the organization squarely on record as to its position on the issue.

Every speaker voiced the sentiment that Santa Ana should be maintained as an open shop city, and that the business men and citizens should put forth every effort to block any attempt that radicals might make to secure a strangle-hold on the industrial activities of this community.

There was no mincing of words. Everyone was outspoken in his determination that such a condition should not be tolerated. They expressed the belief that it would not only cripple the industrials and retard the development of Santa Ana, but would be the worst thing that could happen for organized labor itself.

The resolutions offered co-operation to the conservative union men in the adjustment of any differences that may exist or arise as to working conditions, hours of labor, wages, etc.

In moving the adoption of the resolutions, E. B. Smith said that they were not strong enough.

"Isn't there some way of meeting the unions on a friendly basis and bringing about a mutual co-operation rather than action that would be antagonistic?" asked A. N. Zerman, in speaking to the motion.

"If the radicals have agitators here working among the union men in an effort to stir up strife, we should follow up this resolution with definite and energetic work to counteract the influence of the agitators. If they are here to put the closed shop over, they probably will go ahead with the movement. We should confer with the conservative element of the unions and show them that we are willing to co-operate with them in the elimination of objectionable conditions—if such exist. I am not opposed to tradesmen organizing unions in their respective trades, but I am utterly opposed to the closed shop."

CITIES GATE CITY CONDITIONS

"Only this morning I met a lady who formerly resided in Santa Ana, who now is a resident of San Bernardino," said E. B. Smith. "I asked her how she liked San Bernardino. She replied that she didn't like it and wanted to come back to Santa Ana. She said there was a different atmosphere there to that in Santa Ana. I asked her the reason. She said the city was union-ridden, and that business men were afraid to say anything or do anything to correct the closed shop."

BUZZELL, M'GRAW LABOR ORGANIZERS

"Whenever the unions get radical, the association wants to meet them and let them know that merchants and others stand against them."

"I have lived where the radical element in unions predominated and the situation was bad," said John A. McFadden. "I don't oppose union labor, but I am not in favor of the closed shop."

"By reason of its aggressiveness it is comparatively easy for the radical element to get control of a union. When the movement for a closed shop comes up, then is the time to hit. It is a bad policy to wait and let the other side hit first. I believe we should go to every extreme to hold it down. I believe a large majority of the union men are opposed to radical action."

They have heard union men say that they did not attend meetings of their organizations oftener than once a year, and then only to get their cards. Radicals are always on the job, and that is what is responsible for the agitation in this city at the present time."

"All the employees in the mechanical department of the Register are union men," said J. P. Baumgartner, editor and manager of the paper, "and our relations are mutually pleasant and satisfactory. None of the unions represented—typographical, stereotypers, pressmen—has ever made an unreasonable or unfair proposition to me, and I have never refused to grant any reasonable request any of them has ever made. But there are certain limitations under union regulations that I do not approve. The matter of apprentices is one. We are short of printers to day, and young men are not being permitted to learn the trade in the proportion they should be."

Tells Tulsa Conditions

"I met a man here from Oklahoma, yesterday, who had just received a letter from Tulsa, which said that the town was dominated by radicals, and that the business men of the city had raised a fund of \$200,000 to fight the radicals in their control of the industries."

Coercion Intolerable

"I don't believe employers of the city object to their employees organizing," said F. P. Nickey, president of the M. and M. "If they attempt to control all work and deny employers the privilege of employing efficient non-union men, we will not approve it. It will result only in coercion and we cannot tolerate this for a moment."

J. C. Metzgar, secretary of the M. and M.: "I consider the announcement of E. C. Kersey, that no man

Resolution Passed by M. and M. Association

The following resolution, expressing the attitude the Merchants' and Manufacturers' association will assume in the movement to make Santa Ana a closed shop city, was passed last night at the monthly director-member smoker meeting of the association:

"WHEREAS, It appears from evidence that outside influences are at work in Santa Ana, seeking to impose 'closed shop' conditions upon the industrial life of this community; and,

"WHEREAS, We believe, from observation, investigation and evidence, that such conditions would be seriously detrimental to the peace and prosperity of the community; and,

"WHEREAS, Public sentiment in this community is almost if not quite unanimously opposed to both the principle and the policy of the 'closed shop'; and,

"WHEREAS, To the best of our knowledge and belief, this sentiment prevails to a large if not a majority extent among the wage-earners, employees, craftsmen and laborers of the community, as well as almost unanimously among business men, professional men and employers generally; and,

"WHEREAS, We believe the relations between employers and employees of this community have always been and are now mutually fair, friendly, profitable and entirely satisfactory; and,

"WHEREAS, Where and when such conditions and relations exist it is manifestly unsafe, especially during a strenuous reconstruction period like the present, to do anything to disturb or disrupt them; and,

"WHEREAS, The trend of public opinion and judgment, and the accumulation of experience lead to the conclusion that the 'closed shop' principle is uneconomic, unsocial, unconstitutional and un-American; therefore be it

RESOLVED, That we oppose the 'closed shop' idea and policy, and pledge ourselves to do all in our power to prevent its imposition upon the industrial life of Santa Ana and Orange county; and, be it further

RESOLVED, That the adoption of this resolution is not only not unfriendly or in opposition to organized labor, but is sincerely intended to be in co-operation with and helpful to the vast body of workers of this community especially and those of the world at large; and, be it further

RESOLVED, That a copy of this preamble and resolution be spread upon our minutes, sent to the public press and forwarded to other civic organizations of Santa Ana and Orange County, with the request that such organizations adopt similar resolutions."

would be permitted to work on a job with other union men unless he carried a card, un-American."

J. P. Baumgartner: "As I understand the purport of the resolution, it cannot be construed as unfriendly to organized labor. It distinctly disclaims any such attitude, and affords the local union men a haven of refuge from the storm the outside radicals are attempting to draw them into. At the same time it gives notice to radical advocates of closed shop, strikes and lockouts that Santa Ana isn't that kind of town."

Albert Hill: "We employ between thirty-five and forty men—union and non-union. I have often been asked what stand our firm would take on a closed shop program. I have always said that we would not discriminate as between union and non-union men. I never ask a man whether he is a member of a union or not. The resolution merely shows where we stand in the matter—that we are opposed to the closed shop."

Cites Gate City Conditions

"Only this morning I met a lady who formerly resided in Santa Ana, who now is a resident of San Bernardino," said E. B. Smith. "I asked her how she liked San Bernardino. She replied that she didn't like it and wanted to come back to Santa Ana. She said there was a different atmosphere there to that in Santa Ana. I asked her the reason. She said the city was union-ridden, and that business men were afraid to say anything or do anything to correct the closed shop."

"Whenever the unions get radical, the association wants to meet them and let them know that merchants and others stand against them."

"I have lived where the radical element in unions predominated and the situation was bad," said John A. McFadden. "I don't oppose union labor, but I am not in favor of the closed shop."

"By reason of its aggressiveness it is comparatively easy for the radical element to get control of a union. When the movement for a closed shop comes up, then is the time to hit. It is a bad policy to wait and let the other side hit first. I believe we should go to every extreme to hold it down. I believe a large majority of the union men are opposed to radical action."

They have heard union men say that they did not attend meetings of their organizations oftener than once a year, and then only to get their cards. Radicals are always on the job, and that is what is responsible for the agitation in this city at the present time."

RUSH TO GET ORANGE COUNTY FAIR READY FOR OPENING

Citrus Institute Oct. 27 to 29

**ORCHARD TESTS
TO BE FEATURE
OF SESSION
AT ANAHEIM**

Experts to Give Practical Demonstrations of Subjects Discussed

BIG SUCCESS FORECAST

Pruning, Fumigation, Manure and Many Other Topics Scheduled

Announcement of the date of the year's second Citrus Institute to be held at Anaheim has been made and a program has been outlined.

The institute will open on October 27 and will continue to, and including October 29.

_predictions are freely made that the Anaheim sessions will be equally as instructive and interesting as the sessions which featured the year's first institute, held in Santa Ana last summer.

Farm Advisor H. E. Wahlberg is arranging a program of field demonstrations which will be the main feature of the institute at Anaheim; several of the more important problems confronting the citrus orchardist will be taken up by specialists and practical growers.

The series of demonstrations will be given in an orchard where the practical application of the particular matter under discussion can be seen.

Dr. H. S. Reed will deliver talks on the pruning of orange and lemon trees.

To Discuss Manure Supply "The Future of the Manure Supply" is the topic of a paper to be presented by Mr. Barnes, secretary of the Fruit Growers' Supply company.

Prof. R. S. Vaille will deliver two addresses, "The Tractor vs. The Horse in the Citrus Grove" and "The Cost of Producing Oranges."

"Fumigation Injury" is the subject of a talk to be given by Prof. H. J. Quayle.

Prof. George P. Gray, of the State Fertilizer Control Board, will discuss "Standardization of Barnyard Manures."

Dr. J. T. Barrett and H. S. Fawcett will discuss "The Control of Citrus Diseases."

Other speakers will be obtained, time permitting.

Farm Advisor Wahlberg urges upon all citriculturists the importance of attending the institute.

"All citrus men of Orange county should avail themselves of this opportunity to hear and see the best methods of orchard management," said Wahlberg. "The dates of October 27 to 29 should be reserved for the Farm Bureau Citrus School."

**COMMITTEE SELECTED
TO COLLECT EXHIBITS**

VILLA PARK, Oct. 6.—At a lively farm center meeting last Thursday evening at Villa Park, a committee was appointed to gather exhibits for the coming fair. Members appointed on this committee are Mr. and Mrs. H. M. Gall, Mr. and Mrs. Brown, Mr. Caldwell, Mr. and Mrs. William Scott, Mrs. W. W. Perry.

H. H. Gall was appointed to collect data from power users in the vicinity of Orange and Villa Park for use of the Farm Bureau Power delegation that will appear before the Railroad Commission in November.

URGE SALARY BOOST.

LOS ANGELES, Oct. 6.—More adequately to compensate him for the responsibility assumed and the duties performed, the Los Angeles Realty Board has urged that the City Council increase the salary of the City Engineer from \$5000 to \$10,000 a year. A special committee of the Realty Board recently investigated the matter. Besides being the head of the city's engineering department, the City Engineer under the charter also is ex-officio Harbor Engineer. The position is now filled by Maj. John A. Griffin.

COSTA MESA SHOWS BIG APPLES AT FAIR

MEET SATURDAY ON FERTILIZER LEGISLATION

SCRAPING URGED TO COPE WITH SCALY BARK

Methods of Battling Serious Tree Diseases Are Outlined

The fertilizer committee of the Farm Bureau will meet with District Attorney West next Saturday to consider amending the present state fertilizer law.

"The farmer is paying much good money for valueless material sold under the guise of manures," says a Farm Bureau statement. "It has been variously estimated that \$200,000 is spent annually in Orange county for poor fertilizers that do not come up to quality ordered by the buyer. Some provision is sought by the committees to require analysis of questionable shipments and adjustment of payment made on basis thereof."

Geo. P. Gray, chief of the state fertilizer control board, Sacramento, has been called into consultation by the Farm Bureau. He will meet the fertilizer committee on October 28. The State Department of Agriculture is looking on with a good deal of interest, for it is felt that some action along the line that the Orange County Farm Bureau has started has been needed for a long time, especially since the values of barnyard fertilizers have advanced to present high prices.

WOMAN WINS BATTLE FOR HOMESTEAD TITLE

PLACERVILLE, Cal., Oct. 6.—Mrs. Maud Schneider has won the homestead on which she filed ten years ago.

Mrs. Schneider was teaching school when she filed on her claim. She lived on the homestead, but was offered a better salary in Placerville the next year. So she spent only the week-ends on her farm.

Samuel Butler, receiver of the land office at Sacramento, held this insufficient residence when she attempted to prove up. Registrar Henry P. Andrews held she was entitled to her home. The commissioner of the General Land office upheld Butler, but Assistant Secretary of the Interior and gave Mrs. Schneider title to her homestead.

The stunt, which was witnessed by several hundred persons, was performed by Love. "Just for fun."

The aviator, who was a first lieutenant in the army, recently flew across the continent and made 5000 miles in 95 hours actual flying time.

He comes from Buffalo, N. Y.

ANNEXATION PLANNED.

PASADENA, Oct. 6.—Petitions bearing 450 signatures of Lamanda Park residents asking for an election on the proposition of annexing to Pasadena were filed with the city clerk here today. After the petitions have been checked the Pasadena city commission probably will call the election as requested.

GYPSIES DODGE TAXES BY MOVING FEW FEET

GUILFORD, Eng., Oct. 6.—A novel way to avoid paying local taxes has been discovered by several large families of gypsies in an encampment here.

They own the land and thus are liable to house duty. But there is a regulation that if the wheels of a permanent caravan home are turned completely around once every year the owner is absolved from duty.

Consequently when the tax collector calls at the camp there is a general wheel turning. Every caravan simultaneously moves forward about two yards and the gypsies can live duty free for another year.

DRUNKEN SWINE LEAD OFFICERS TO STILL

WHITESBURG, Ky., Oct. 6.—A drove of intoxicated hogs gave prohibition officers the clue that led to seizure of a giant still and arrest of two men in Letcher county. Returning from an expedition through the Cumberland River headwaters, Officers James Toliver, Felix G. Fields and John G. W. Collins reported destruction of six stills. The largest was found in a dark ravine near the mountain top. Officers ran across a bunch of hogs cutting wild capers. A search revealed a modern outfit at the still. Henry Sturgill also was taken into custody. The hogs had been drinking beer and refuse from the still.

The only direct rail route now connecting the two republics is the Trans-Andino from Los Andes, Chile to Mendoza, Argentina.

We do nothing else but plan ways of giving you a little more than your money's worth in high grade leather goods, wardrobe trunks, bags, and the like.

By specializing in these lines we are able to get better markets and better goods for the money. That's why it pays to buy such goods here. We have many new numbers in the fall lines ready to show you.

Superior Quality Marks This Line

Here's Program Outlined For Tomorrow, Opening Day of Big County Fair

10 a. m.—Opening of fair. Judging of exhibits. Concert by the Anaheim Elks' Band. This is Northern Orange County Day.

11 a. m.—Meeting of Orange county dairymen, under auspices of the farm bureau.

12 noon—Lunch.

1 p. m.—Concert by Anaheim Elks' Band.

1:45—Flying stunts.

2:30—Wedding, (if any couple wants the prizes offered).

3:00—Vaudeville program, including: Billy Stahr, "Tramp Tenor from Nowhere;" Juggling Nelson and his funny hats, from the Orpheum circuit; Early and Leight, comedy artists; Miss Billie Hoffman, popular song entertainer, and Decker, Hooper and Decker, Hawaiian trick instrumentalists and singers.

4:30—Concert by Anaheim Elks' Band.

5:30—Concert by Anaheim Elks' Band.

7:30—Vaudeville entertainment.

Friday is educational day and Santa Ana day, with concerts by Santa Ana band, Saturday's features will be the old settlers' reunion and states' picnics, with music by Huntington Beach Band.

JELLY JUICE IS NEW UNIVERSITY PRODUCTS

Making possible the foundation of a new fruit product industry, Professor W. D. Crues of the University of California has completed experiments which show that all jelly fruits may be preserved in liquid form indefinitely in cans or jars for jelly making. The experiment extended over a period of five years. Professor Crues says that jelly juices may be prepared and preserved in the household as well as on a commercial scale, thus prolonging the jelly season. The State University is attempting to interest canners and others in the production of jelly juices from surplus citrus fruits, apples and berries.

For use in the kitchen the jelly juice is very convenient. All that the housewife needs to do is open the can, empty the jelly juice into a pot, add an equal volume of sugar, boil a short time and pour into a glass.

Travel by Motor Transit stages to Los Angeles and intermediate points. Cars leave station, 5th & Sycamore streets, every half hour from 6:10 a. m. until 8:10 p. m., then 9:10, 10:10, and 11:10 p. m. daily. Frequent return schedule.

Dance every Wednesday and Saturday at Neills Hall. Hudson's Jazz Orchestra.

30,000 ARE EXPECTED TO VISIT HUNTINGTON BEACH TO SEE WONDER DISPLAYS

The staccato tapping of carpenters' hammers, the hoarse cries of superintendents of workmen, the myriad confused noises attendant upon the placing of hundreds of exhibits in their proper places—these were marked characteristics of the fair grounds at Huntington Beach today.

All was apparent confusion, but throughout there was apparent a steady working toward one object—getting ready the big exposition of samples of Orange county's \$90,000,000 annual products output.

For the Orange County Fair opens tomorrow. At 10 o'clock in the morning the doors will be thrown open and there will begin to pass through the main entrance the thirty thousand people who are confidently expected to attend during the three days of the fair.

The display of samples of the county's varied products it is declared will be the most comprehensive ever assembled in Orange county.

PLANS LAID FOR BIG PICNIC OF DAIRYMEN

The Dairymen's picnic, on the first day of the Orange County Fair, at Huntington Beach, October 7, will be one of the big features of many interesting events.

A special program has been arranged by the directors of the Dairy Department of the Orange County Farm Bureau, as follows:

10:00 a. m.—Band Concert—"Practical Feeding of the Dairy Cow;" G. D. Drinkwater, San Diego Milk Producers association secretary. "Cow-testing Demonstration"—Value to the Dairymen; J. R. Waters, Orange County Farm Bureau; J. W. Soden, Farm Bureau Testor. "The California Dairy Council"—L. H. Moulton, California Dairy Council.

Noon—Free coffee and milk will be served.

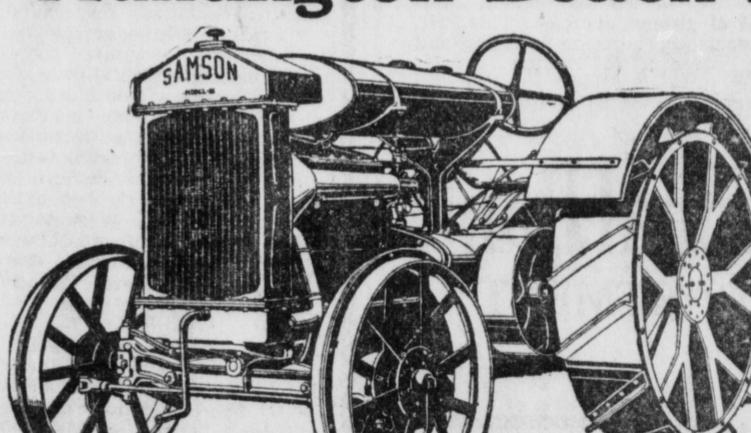

1:00 p. m.—Band Concert. "The Care of the Dairy Calf," Protection of the Producer"—T. H. Brice, Secretary California Milk Producers association.

In connection with the Dairymen's picnic, the Farm Bureau has issued the following statement:

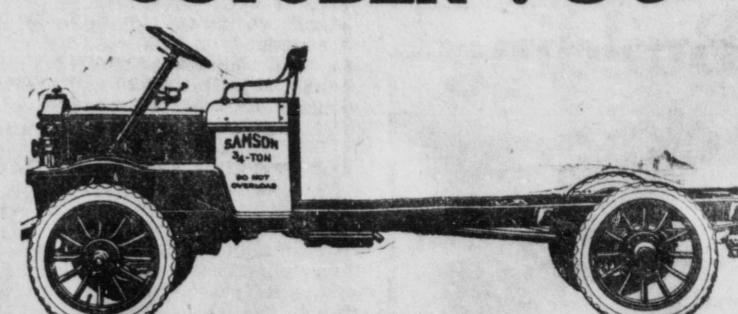

"Whether you own one or one hundred milk cows, you should be interested in such questions as feeding, producing and marketing. Some of the best authorities of the State are scheduled to be at the picnic to discuss such problems. Now, more than ever before, the dairymen must realize that organization and close co-operation is the only means of getting just recognition in the business world."

We Believe in the FAIR

—We believe in the County Fair idea. We believe it ought to be a greater and more important fair each succeeding year. We regard the fair as one of the very best mediums for the demonstration of the county's productiveness and the county industry.

—We believe that every industrial establishment and every business firm in the county should give the County Fair at Huntington Beach full support.

—That is why we are placing an exhibit there. That is why we are telling our friends to attend the fair and take an interest in it.

—We invite you to visit our booth at the fair. You'll find it a convenient and pleasant place to rest. You'll also find displayed some decidedly striking ideas in house furnishings.

—But no matter about our display—you ought to attend the fair on all three days if possible, Thursday, Friday and Saturday, and lend your support and encouragement to the good men who are working so hard to make the big fair a success.

Fourth and Spurgeon.

(Continued from page nine)
flowers, produced on his five-acre ranch. The county Farm Bureau has a booth overlooking the farm displays, and will show the great value of this organization to the modern rancher. This main fair tent is 80x200 feet in size, and will be full of interesting exhibits.

To the right, rear, is an entrance into a round tent, 60 feet in diameter, which will house the poultry and pet stock department, with many prize birds shown. The Santa Ana bird farm will have more than sixty birds at the fair, including several unusual specimens.

Shows Latest In Autos

To the left, at the end of the main tent, is the entrance to the automobile, truck, and tractor exhibits which will be one of the big points of interest, with late models and "dotted up" cars of prominent Orange county dealers on display. In these tents will be shown everything from the small garden tractor-cultivator to farm implements made in Orange county and the biggest of heavy-duty tractors. In these tents also will be the booths and restrooms of the two auto clubs and the Auto trades association.

After passing through the automobile tents, the visitor will come into the entertainment tent, where vaudeville programs will be given each afternoon at 3 o'clock and each evening at 7:30; and where most of the band concerts will be given at 10 a. m.; 1:00, 4:30, and 6:30 p. m., daily.

Across the street from the fair tents, above the Gibbs grocery store, will be the exhibit of Orange county public schools. Down Main street a few feet, in the old Lee Grocery store, will be the domestic arts and relics and souvenirs display, and upstairs over the Olson furniture store will be shown more than sixty fine canvases by Laguna Beach artists.

The goat and hog exhibits will occupy outdoor pens alongside the automobile tents.

No words can do justice to this Orange County fair. One must see the flowers, the fruits, the birds, the culinary displays and all the rest to appreciate Orange county and its wonderful resources, and with paved roads leading to the beach city, from all parts of the county and thousands of automobiles in use, the way is easy for everyone to see it all, with plenty of entertainment thrown in, to make the days and evenings educationally and pleasantly worth while.

The people of Huntington Beach and hundreds of friends throughout the county have worked hard and are still working hard to make this the largest and best county fair ever held, and now invite all to come see, and enjoy the fair during the next three big days and nights.

FORESTRY PROGRAM OF U. S. IS STATED

In response to a resolution of the United States Senate, the Forest Service has restudied the forest situation of the country. It was found that recent high prices of lumber, newsprint, turpentine, and other forest products have seriously affected many industries and in various ways have imposed formidable burdens on the public.

House building has been checked, farm development and upkeep hampered, and the cost of furniture, vehicles, tool handles, agricultural implements, and other articles heavily increased. Lumber prices have risen out of proportion to increased costs of production and distribution. The pulpwood and paper industry is in straits for raw material from the forests.

Depletion of the timber supplies in the eastern part of the United States has reached the point at which eastern and even southern markets are being invaded by West Coast lumber, hitherto barred by the high cost of transportation. The timber of the country as a whole is being used and destroyed four times as fast as new timber is growing, and the saw timber, the most valuable and most needed part of the stand, is being cut five and one-half times as fast as it is produced. More than 80,000,000 acres of land that should be growing timber is unproductive waste, much more is only partially productive, and fires are steadily causing further deterioration.

The new study of the situation made by the Forest Service contains many facts never before brought out, regarding both individual industries and conditions in individual States and regions. It discusses also the relation between forest depletion and the lumber prices, depletion and exports, and concentration in timber ownership, manufacture, and marketing. Fresh light is thrown on the question of timber monopoly.

Finally, a program is outlined for bringing about a fundamental and permanent change in the situation. Timber in large quantities will always be an economic necessity, and we must prepare to grow it.

IRRIGATION PROJECT FRESNO COUNTY PLAN

SAN FRANCISCO, Oct. 6.—The Southern California Edison company has applied to the Railroad commission for permission to construct reservoirs at Florence Lake and Shaver Lake, Fresno county, a conduit connecting Florence Lake reservoir with the Huntington Lake reservoir and the building of Big Creek power houses Nos. 2-A and 3, and other work.

The Peninsula Rapid Transit Company, operating a bus line between San Francisco and San Jose, applied to the commission for authority to increase its passenger rates 5 cents between the various points served by the company.

The San Diego Electric Railway company asked the commission for permission to discontinue what it calls "No. 12 line," on the ground that it has lost approximately 6 cents for each revenue passenger carried in the last eight months.

Lake county has decided for the time being to organize no farm bureau of its own but to unite with Napa and Mendocino counties.

OVER 104,000 LETTERS WRITTEN BY COLLEGE

More than 104,000 letters, sent to all sections of the state, were mailed by the College of Agriculture of the State University during the year ending June 30, 1920. The letters were written upon subjects as varied as the agricultural interests of the state, and the great bulk of them were devoted to bring useful information to the farmers.

The letters sent out in a year's time are grouped as follows:

Directors office, 3654; Citriculture, 1238; Landscape Gardening, 1060; Davis, 27,232; Genetics, 119; Farm Management, 419; Agricultural Extension, 21,840; Forestry, 1511; Agricultural Education, 3615; Agronomy, 2969; Plant Pathology, 1048; Insecticides, 788; Rural Institutions, 8091; Viticulture, 3173; Riverside, 6694; Veterinary Science, 1723; Pomology, 5645; Entomology, 1848; Nutrition, 1602; Agricultural Chemistry, 1678; Soil Technology, 1860; Soil Chemistry and Bacteriology, 1814. Total, 104,619.

NORTHWEST POINT IS IN MINNESOTA

The farthest east, west, north and south points on the United States mainland have been determined by the United States geological survey, which announces that the easternmost point is West Quoddy Head, near Eastport, Me.; the westernmost point, Cape Alava, Wash.; the farthest north a small detached land area of northern Minnesota ending in latitude 49 degrees 23 minutes and longitude 95 degrees 9 minutes; the southernmost point, Cape Sable, Fla., while the Florida keys extend farther south.

Other Fascinating Facts

Data determined and compiled by the geological survey contain some interesting facts not generally known. Some of these are:

The gross area of the United States is 3,026,789 square miles.

The land area is 2,973,774 square miles.

The water area, exclusive of the Great Lakes, the Atlantic, the Pacific and the Gulf of Mexico, within the three-mile limit, is 53,015 square miles.

From the easternmost point, West Quoddy Head, due west to the Pacific ocean the distance is 2,807 miles.

The shortest distance from the Atlantic to the Pacific, between points near Charleston, S. C., and San Diego, Cal., is 2,152 miles.

The Canadian boundary is 3,898 miles long.

Mexican Border 1744 Miles

The Mexican boundary is 1744 miles long.

The Atlantic coast line is 5,560 miles long.

The Pacific coast line is 2,730 miles long.

The Gulf of Mexico coast line is 3,640 miles long.

Cuba, if transposed directly north, would extend from New York City to Indiana, with Havana farther west than Cleveland.

The Panama canal is due south of Pittsburgh, Pa.

Nome, Alaska, is farther west than Hawaii.

WOMAN MAKES \$1800 TRAPPING IN CANADA

VICTORIA, B. C., Oct. 6.—Mrs. William Chamberlain, wife of a rancher near Invermere on the Columbia river, proved last season that women can be successful trappers. She cleared \$1,800 on furs with sixty traps. As pioneer in a new feminine industry, she set an example that will be followed by many women throughout British Columbia this fall. She is preparing to trap on a larger scale. Her trap lines will be set with 200 traps when the season opens in November.

When last season ended her seasons' catch comprised 700 muskrats and many weasels, mink, skunks and red foxes.

URGES GAME RESERVE

CALGARY, Alberta, Oct. 6.—That all Northern Canada should be a sanctuary for wild animals is the advice of H. A. Conway, inspector of Indian agencies in the far north.

An agricultural department has been installed in the schools of Rainier, Oregon.

A series of beef cattle sales has been planned for Medford, Oregon. The first was held on September 15. The farm bureau of Wasco county, Nevada, has formed a marketing department and will employ a manager.

E. W. Hudson, a prominent Arizona farmer, has been appointed a member of the board of regents of the Arizona State University.

Finally, a program is outlined for bringing about a fundamental and permanent change in the situation.

Timber in large quantities will always be an economic necessity, and we must prepare to grow it.

SOUTH IS TURNING AGAINST CALOMEL

Mr. Dodson, the "Liver Tone" Man, Responsible for Change for the Better

Every druggist in town has noticed a great falling off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place.

"Calomel is dangerous and people know it." Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle doesn't cost very much, but if it fails to give easy relief in every case of liver sluggishness and constipation, just ask for your money back.

Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel. Take a dose of calomel today and tomorrow you will feel weak, sick and nauseated. Don't lose a day.—Adv.

START WAR ON OPEN MUFFLERS

Autoists and motorcycle riders who are accustomed to driving or riding with the mufflers of their machines open must "watch their step." City officers today were engaged in an intensive drive against the noise producers and every one found operating a vehicle with the muffler open will be haled into the city recorder's court.

Carelessness of the operators of the gasoline "wagons" has made life almost unbearable in Santa Ana, it is declared. The noise has been particularly marked at night.

"We are going after these violators," said Frank Stewart, motorcycle officer for Santa Ana, today. "We will no longer tolerate the pop of the motorcycle or automobile engine when the muffler is open. It has gotten to be a great nuisance and people are complaining."

"It is the intention of the officers to devote themselves to these noise producers for several days. Every violator will be arrested."

BASEBALL HERE HAS RUTH'S SIGNATURE

Three famous baseballs were on exhibition today in the window of Victor Walker's sporting goods store, 205 East Fourth street. "Babe" Ruth, of home-run fame, has written his autograph on one of the balls, and George Sisler, American League batting champion, has also signed the ball. Sisler hit an average of .405 last season, so any ball on which appear the names of Ruth and Sisler may justly be called famous.

The other two balls have been signed by entire clubs, one being autographed by the St. Louis Browns and the other by the Philadelphia National League club.

The ball having the autographs of "Babe" Ruth and Sisler was sent to Alex Brownridge of Santa Ana by Jim Austin, third baseman for the St. Louis Browns. The horsehide spheroid on which the names of the Phillies appear was used in the 1915 world's series. After it was signed by the Philadelphia club Fred Landers, former first baseman, put it in his pocket.

The ball signed by the St. Louis Browns was sent to Victor Walker by Jim Austin, third baseman for the Browns.

MOTOR MECHANICS ORGANIZE, REPORT

Motor mechanics of Orange County have formed a union, according to the announcement made at Brea at the meeting of the Orange County Trades Union. It was said that a charter had been sent for.

At the meeting, E. C. Kinsler, of the oil workers' union, acted as chairman.

Speakers expressed themselves as enthusiastic over the outlook as concerns labor.

A report was made, showing the cost of the Labor Day picnic at Orange County park to have been \$150.

Notification was received to the effect that the dues of the Orange County Trades Union have been paid into the State Federation of Labor. This signifies the final step in the affiliation of the county organization with the state federation.

Discussions of the proposal to build a labor union temple were renewed. All present expressed themselves as highly in favor of the project. However, no definite decision was reached. Whether the temple will be built in Santa Ana, or in a city in the northern part of the county is a question that has not been settled.

It was decided that the county organization would meet in Santa Ana on the first Monday of each month and at Brea on the third Monday of each month. The meetings in Santa Ana will be held at 204½ East Fourth street.

The meeting was attended by approximately twenty-five members.

FEDERAL GRAND JURY INDICTS EDISON CO.

NEW YORK, Oct. 6.—The Federal grand jury has returned a batch of indictments charging profiteering in connection with coal purchased for the Brooklyn Edison company, Inc., for public utility purposes, but alleged to have been diverted and sold for export at a profit.

The conspiracy indictment charges the Edison company, the Adelphia company, Walter F. Wells and Harry Wood with having unlawfully, willingly and knowingly conspired to violate a section of the Lever Act providing "for the national production, conserving the supply and controlling the distribution of food products and fuel."

The charges state specifically that the defendants entered into an agreement whereby the Edison company would purchase coal from the Adelphia company at excessive and unfair prices and would receive bonuses or commission on all such purchases. In purchasing from other dealers through the Adelphia company, the latter firm would receive the bonuses or commissions. Profits accruing from these transactions, together with the bonuses and commissions, it is charged were divided equally among the defendants.

LEONARD WHIPS BRIT.
HARTFORD CITY, Conn., Oct. 6.—Benny Leonard sported another K.O. today. His fight with Frankie Britt here, was stopped in the fifth when Britt was hopelessly outclassed.

At 7½ cents per mile, 5 people can travel for less than bus, train or street car fare, not to say anything about the added conveniences and comfort in going and coming when and where others don't go. When taking your next day's outing, remember Copson rents cars without drivers.

UNLOADING SWITCH IS MOVED UPON REQUEST

LA HABRA, Oct. 6.—The La Habra Farm center committee has succeeded in getting the P. E. to move a fertilizer unloading switch further out of town. The presence of the switch close to town had proved offensive.

At the last meeting of the center, C. L. Crumrine was appointed as a committee man to interview the Salt Lake railroad officials for the purpose of urging them to locate the fertilizer switch, when the road is built, well out of the city.

La Habra is to have a good exhibit

at the county fair. Those on the committee are W. L. York, chairman, Mr. and Mrs. Launder, Mrs. Garrison, Mr. Hibbs, Mr. and Mrs. H. B. Gurley.

The question of what will be done with strictly forest lands in California after the timber has once been logged will be a subject for consideration by the next Legislature according to a recent decision of the State Board of Forestry. It is pointed out that because of the long time required to bring forest trees to commercial size private interests en-

gaged in logging virgin timber cannot be expected to be interested in the growing of new forests.

To bring new forests to commercial size after the present forests have been removed will require protection from fire and the reforestation of areas that will not reforest themselves. For these reasons the State Board of Forestry purposes that the state acquire logged-off lands not best suited for agriculture and proceed in the business of raising trees for the future needs of the people of California. In this connection it is proposed lands that were logged in such a way as to protect the young timber and leave sufficient trees so that new forests will grow

more readily shall receive first consideration for state acquisition.

At the present time there are more than 600,000 acres of logged-off land in California most of which is better suited for growing forest trees than for agricultural purposes.

BOPP AND VAN SCHACK WIN FEDERAL PAROLES

LEAVENWORTH, Kan., Oct. 6.—Franz Bopp, former German consul general at San Francisco, and Eckhart H. Von Schack, former vice consul general, will be released in a few days, according to a report here

which said an order for their paroles has been issued at Washington.

Warden Anderson admitted he had received word that the parole was on the way.

Bopp and his aides were found guilty by trial in 1917 of violating United States neutrality laws. They appealed, but before the appeal could be heard the United States entered the war and they were interned.

WOULD FREE STREETS OF SAN DIEGO STAGES

SAN DIEGO, Oct. 6—Hoping greatly to relieve crowded conditions in

the congested district of the city, James Patrick, chief of police of San Diego has recommended to the city council that, beginning January 1, all automobile stages be prohibited from parking in the congested district.

Members of the council seemed to look upon this plan with favor, but instructed the chief to put his recommendations in writing and present them to the council at its next meeting. The chief told the council that there are now four stage companies operating in the congested district, with about 100 cars in use.

HEIDT CHOSEN SCOUT LEADER

Elmer E. Heidt has been secured as scout executive for the Orange County Council, Boy Scouts of America, it was announced today. Heidt is to arrive in Santa Ana next Monday, and will begin his service as scout executive on Friday, October 15.

The selection of Heidt for this important Boy Scout position came largely as the result of the investigation and recommendation of Charles N. Miller of Los Angeles, field representative of the national organization of the Boy Scouts. Miller understands the needs of this county fully, for he has had a number of conferences with local Boy Scout representatives in regard to the kind of man who is needed to make the most of the work here.

Heidt presented credentials showing that he has had a wide experience in the kind of work that will be needed to organize the Boy Scout work in this county and lead it successfully.

Heidt has been living in Springfield, Mass., where he graduated from college. He has been a field representative of the American Red Cross instructing in first aid and life saving. For two years he was a member of the faculty of the Central High School of Springfield, Mass., where he was instructor in first aid, hygiene and physical training.

His experience includes work in organization of high school troops, as director of a municipal bathing beach, as a choir and camp director for a tri-state camp, as director of a glee club, as captain of a gymnastic team and as director of a Sunday School. He is 30 years of age.

Heidt will hold a conference next Sunday in Los Angeles with M. B. Wellington, president of the Boy Scouts council, and he will be in Santa Ana on Monday for a meeting with the executive board of the council.

The work of the Boy Scouts in Santa Ana is to be supported to a large extent through voluntary contributions. The campaign committee does not expect to conduct a drive or canvass. It believes that the work of the Boy Scouts has sufficient appeal to carry itself along in this city. That is, there are enough parents and others interested in the success of the work to contribute sufficient funds to finance the work here.

For that reason the announcement is made that anyone who desires to help the work must mail or give his or her check or money to some member of the campaign committee. There are a good many people who expect to give to the Boy Scout work, but who have been waiting for a solicitor to come around to them. Anyone who has been waiting should wait no longer but should mail his check to S. J. Cornell, W. C. Jerome, Dr. Roy S. Horton, Dr. V. A. Rossiter or M. O. Robbins. These five men comprise the campaign committee.

Checks are sought in units of \$10, as \$10 will pay for enlarging the Boy Scout work to include one more boy. Each \$10 pays for an associate membership. The Rotary Club yesterday took out twenty-four associate memberships.

OKLAHOMA CLAIMING OLDEST WOMAN VOTER

LAWTON, Okla., Oct. 6.—Woman suffrage was received with no more delight by any woman in the state than by Mrs. Elizabeth Davison, Lake township, Comanche county, who is probably the oldest voter in the state of Oklahoma and probably in the United States. Mrs. Davison who is 110 years old, registered for the first time at the registration preceding the recent primary.

"Grandma" Davison, as she is better known, is taking an active interest in politics, especially in the candidacy of Elmer Thomas, candidate for congress from the sixth district with whom she has been close friends for many years. "Grandma" Davison lives in the Wichita Mountains, a short distance above Medicine Park.

She was born in Scotland in 1810. She came with her parents to the United States and located in Tennessee. Later she moved to Texas and at the opening in 1901, came to Oklahoma to take up a homestead. Mrs. Davison is remarkably active for her age. She registered as a Democrat at the recent registration.

At Chico, last November, the Fifty-second Convention was responsible for the organization of Agricultural Legislative Committee which is now in active operation, and which, in the hands of the organized farmers, has and will prove of untold value in directing agricultural legislation along constructive channels.

With such a record behind it the coming convention at Fresno is in a position to render effective service once more. The details of the program, as yet have not been worked out but announcement will be made later in this regard. There is every indication, however, of an unusually strong program, and one which every farmer can not well afford to miss.

NEW ORLEANS PLAN TO REVIVE BOXING GAME

NEW ORLEANS, La., Oct. 6.—This city is to have anotheristic arena. The Winter Garden having been leased for a term of years by Al Pilsbury and Hal Harvey, well known in local sporting circles, will be entirely remodeled into a modern fighting arena. The backers of the new enterprise plan to have the arena in readiness for a boxing carnival beginning the latter part of October. Thereafter, it is planned to hold weekly matches throughout the winter months.

Farm Centers to Vie For \$115 in Prizes at Big Fair This Week

The Fair Association, Huntington Beach, has allotted two extra prizes to be awarded to the fourth and fifth place in the Community or Farm Center exhibits. According to the revised schedule, first prize will be \$50; second, \$30; third, \$20; fourth, \$10 and fifth, \$5.

The judges will be instructed to take into consideration the following points:

Quality of produce shown...50 Variety of produce shown...20 Quantity used in proportion to display.....10 Originality of display.....10 Execution of display.....10

Ten Farm Centers will compete for the prizes. Murray Horne, a Farm Bureau director and also a representative of the Fair Association, has met the various Farm Centers and has largely assisted with committee work in all districts to make the show for each a success.

(Advertisement) MONEY COULDN'T BUY THE GOOD IT DID HIM

"If it were possible to sell the good Tanlao has done me, there is not enough money in the universe to buy it," said A. H. Hebert, well-known painter living at Alderwood Manor, Bothell, Wash.

"I had suffered from stomach trouble for several years and got to where everything I ate disagreed with me," continued Mr. Hebert. "My kidneys, too, were in such bad shape I nearly always had a pain in the small of my back and I had the rheumatism in the shoulders so bad I had to give up several different jobs on account of it. My nerves broke down and I could hardly sleep nights and finally got to where I was hardly able to get about. To tell the truth, I doubted whether I would ever be able to work any more."

"Then I began taking Tanlao and I never saw anything to beat the way it knocked out my troubles. I have taken five bottles now, and I never felt better in my life. The stomach trouble, rheumatism, pains and nervousness are entirely gone; I eat everything set before me, sleep sound as a log and work hard every day. Yes, sir, Tanlao did the work for me and I pass the good word on to others every chance I get."

Tanlao is sold in Santa Ana by Rowley Drug Co. and the leading druggists in every town.

NEW PUBLICATIONS TO BE DISTRIBUTED

The following publications were issued by the United States Department of Agriculture during the week ending September 11:

Home Laundering. Farmers' Bulletin 1099.

Alfalfa. Department Circular 127.

FRUIT GROWERS TO CONVENE AT FRESNO

An invitation to hold the Fifty-third Convention of California Fruit Growers and Farmers at Fresno, November 9 to 11 inclusive, was extended to the State Department of Agriculture by the directors of the Fresno Chamber of Commerce last Thursday and was accepted.

These conventions, now held annually under the auspices of the State Department of Agriculture, are for the purpose of bringing the agricultural men of the state together to discuss problems of vital importance to them, and to enable them to take such direct action on questions relating to the industry as may prove necessary.

It was at the Forty-ninth Convention, held at Napa, California, that the movement was inaugurated that we now find embodied in our present standardization laws, which are operated so successfully both in the United States and serving as a model for like purposes in many foreign countries.

The Fifteenth Convention at Sacramento was responsible for the representation of agriculture on the State Council of Defense and the resulting effective work in co-ordinating all agricultural industries toward winning the war.

The Western Plant Quarantine Board, comprising representatives of all the states west of the Rocky Mountains and British Columbia, Lower California and the Territory of Hawaii, was organized in the Fifty-first Fruit Growers' Convention at Riverside in 1919. The effect of the co-operation between these western states, as brought about by this organization, has been to aid materially in preventing the spread of important plant pests from one state to another and the introduction of others from outside territory. The value of this work to the farmers of California and indeed the entire United States, is beyond computation.

At Chico, last November, the Fifty-second Convention was responsible for the organization of Agricultural Legislative Committee which is now in active operation, and which, in the hands of the organized farmers, has and will prove of untold value in directing agricultural legislation along constructive channels.

With such a record behind it the coming convention at Fresno is in a position to render effective service once more. The details of the program, as yet have not been worked out but announcement will be made later in this regard. There is every indication, however, of an unusually strong program, and one which every farmer can not well afford to miss.

Gas Heaters

A satisfactory Gas Heater must be one so constructed that it will burn the carbon in the gas instead of releasing it into the air.

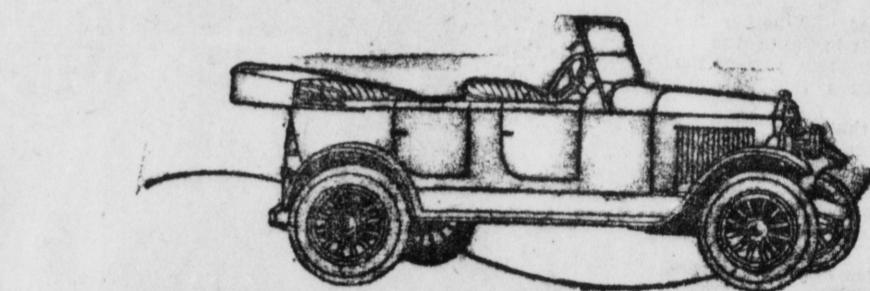

The "Packer," "Thrift" and "Favorite" are three styles of Heaters which burn our gas to perfection. Sold on a positive guarantee.

Seed dealers in the Salt River Valley of Arizona state that the demand for garden seeds this fall is coming earlier and in a volume which indicates that there is a healthy return to the home garden plan.

Mr. F. Lutz Co.

Stearns-Knight Prices Guaranteed

—Advices from the Stearns Factory permit a guarantee of Stearns-Knight prices against a decline before January 1st, 1921.

—The Factory further advises there is every possibility of a sharp advance the first of the year, due to rising material and labor costs.

—Stearns prices always have been based on quality-material and high-class labor costs, plus a reasonable profit. Under no consideration will Stearns standards be lowered to meet a price.

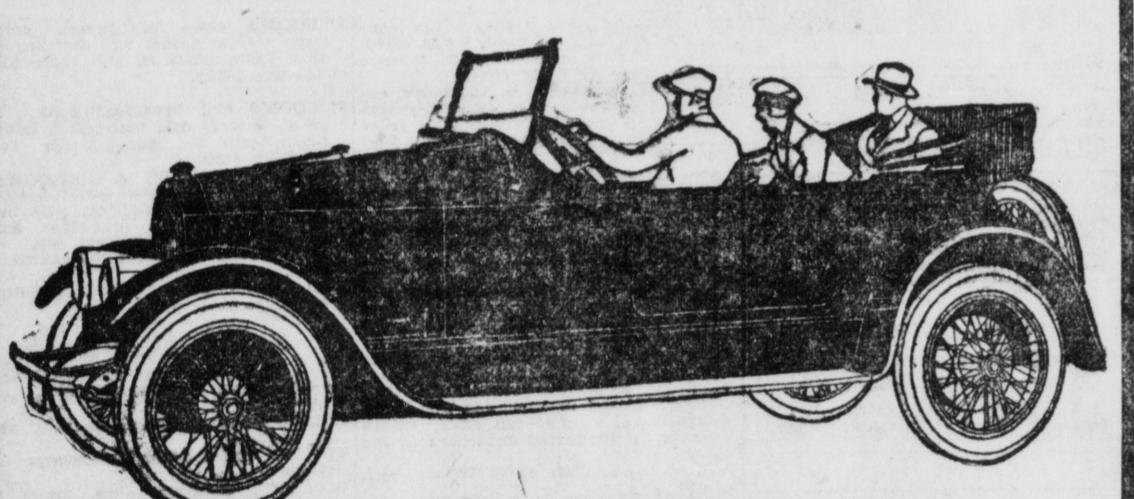

—You can buy your Stearns car now with a positive guarantee of no decline in price. Orders for delivery after January 1st will be accepted subject to an increase.

COURTHOUSE NEWS

SUPERVISORS HOLD REGULAR MEETING

The fifth successive week since the time set for receiving bids on the Newport Beach school bonds, a report of "no bids received" was made at the meeting of the Orange County Board of Supervisors yesterday. The matter was carried over once more till the board's next meeting, which will take place October 13.

Although the bond market is known to be dull, nevertheless this absence of bids for the bonds is considered unaccountable, as the bonds, which total \$12,000, bear six per cent interest, and are considered a gilt-edged investment. The interest rate cannot be raised, the law prohibiting it. However this interest rate, according to authorities, compares favorably with the condition of the bond market at the present time.

Bids were opened yesterday for the improvement of the curb and gutter on Walnut and Cypress streets, in the Third road district. There was but one bid, which was by E. N. Dunbar, for \$14,734.65. Further consideration of the bid was continued to October 13.

A motion was passed instructing the clerk to have fifty copies of the indexes of the Great Register printed for the November election, the price for printing it to be fixed at twelve cents per name, including the cover for the index.

The chairman of the board was authorized to oppose the bond on map tract No. 129. The supervisors adjourned until October 13.

BURRUEL GETS BAIL

Joe Burruel, held on an embezzlement charge brought by J. J. DeVaux, was at liberty today on \$500 bail put up by J. W. Tubb and H. W. McCullough. Burruel was alleged to have removed from the county a machine he had leased from DeVaux, and for which he was making part payments. He was alleged to have concealed the machine and to have sold it against the terms of the purchase contract. It was stated, however, that the charge against Burruel is largely a result of misunderstanding, and will be satisfactorily adjusted shortly. Burruel bears an exceptionally excellent reputation here, it is stated.

Don't miss the big fair at Huntington Beach this week. One interesting exhibit will be the Beaman One Horse Tractor. You ought to see it. M. Eltiste & Son, Orange.

ASSOCIATION OF OREGON expects to ship out about 150 carloads of peats. The majority are Bartletts, with d'Anjou next in quantity.

The farm bureau of Washoe county, Nevada, is asking the state quarantine inspector to open negotiations with California to secure modification of quarantine against hay due to appearance of alfalfa weevil.

SEALS TRIM SENATORS

SACRAMENTO, Oct. 6.—San Francisco bidders bid on Senator Clark's estate of and sixth rankings and took the opening game of the series from Sacramento, 4 to 2. Bert Cole had the Senate at his mercy except in the sixth game, when the necessary triumph in the office of the Clerk of the Superior Court of the County of Orange, State of California, or to exhibit the same with the necessary vouchers to the said Administrator at its place of business at the Banking Department of the Orange County Trust & Savings Bank, in the City of Santa Ana, in the County of Orange, within ten months after the first publication of this notice.

Dated this 29th day of September, 1920.

ANAHEIM VOTERS APPROVE BONDS

PRINCESS MARY PLAYS JOKE ON CANNY SCOTS

BALMORAL, Oct. 6.—Princess Mary has been having a good time "spoofing" threepences out of canny Scots.

At a bazaar recently in aid of the funds for Crathie Church, Princess Mary and Prince George offered their services as booth-holders. Outside a booth was a notice: "Swimming Match Within."

Admission 3d."

Princess Mary stood at the entrance of the booth and collected the threepences for admission. The "swimming match" was an ordinary wooden vesta blown hither and thither by Captain Ramsay, whose romantic marriage to Princess Pat created so much stir, and the Rev. John C. Calow drew up the petition.

Not as many voters took part in the election as had been expected. For the past six years Anaheim has made efforts to gain a public park, but at each of four elections held, the proposed bond issues were defeated. Steps will now be taken by the Chamber of Commerce, American Legion and other organizations to plan the park.

During the past month there was a great difference of opinion between the citizens and the city council as to where the park should be situated. The city council favored and planned to purchase what is known as the Dickel site of 20 acres located north of the town. The citizens favor the Library site which is more centrally located.

Extensive plans are under way for the planting of trees, grass and other shrubbery. Several hundred dollars will be spent for the planting of flowers along the gravelled walks which will run through the park. Four entrances are planned for the site, one from each corner of the square plot.

JOCKEY MOURNS LOSS OF WEALTHY EMPLOYER

DEAUVILLE, Oct. 6.—French track followers have been criticizing the riding of Frank O'Neill of St. Louis lately. O'Neill, with the Vanderbilt horses, was leading the jockeys of the French turf by a wide margin the middle of July, having practically double the number of winning mounts of Bellhouse, his closest opponent. Latey O'Neill seems to have had an unlucky spell and winners have been few in his column.

Some days ago O'Neill told a friend: "I don't know what has happened to me since W. K. (Vanderbilt) died. I ride harder than I ever did in my life, but I am jinxed. It seems that my luck passed away with W. K. He was more a father to me than a boss. I feel all broken up about it."

If you've never seen an International Tractor in operation you have missed something interesting. See it at the Huntington Beach Fair this week. Let's make it a big fair. M. Eltiste & Son, Orange.

"Diamond Dyes"
No Risk Then!

Don't Spoil or Streak Material
in Dyes that Fade or Run

Each package of "Diamond Dyes" contains directions so simple that any woman can diamond-dye a new, rich, fadeless color into worn, shabby garments, draperies, coverings, everything, whether wool, silk, linen, cotton or mixed goods.

Buy "Diamond Dyes"—no other kind—then perfect results are guaranteed even if you have never dyed before. Druggist has color card, showing 16 rich colors. Adv.

WILL ORGANIZE PLAYERS HERE

RATIO OF SIRES TO DAMS SHOWN

A meeting has been called for the purpose of organizing a community players' association in Santa Ana. It is proposed that this association shall be formed of those who are interested in the drama, and from its ranks will be selected players to put on a local stage some of the better class of plays.

This meeting is to be held at 8 p.m., October 13, in the music room of the Santa Ana high school. Any one interested in the work is invited to attend.

It is proposed to use the new high school auditorium for the presentation of the plays. There is nothing to be gained in a financial way for those who take part in the work of the association. Whatever money may be realized from productions will be put into bettering the quality of other productions.

The community theater is a theater of the people, by the people, for the people," is the way the community theater has been described.

WOMAN RANCHER HELD.

RIVERSIDE, Oct. 6.—"If it is your business to get the mules, find them." This sentence, ascribed to Mrs. I. D. Mulligan, is the cause of charges preferred against her by the Hellman Bank of Blythe, which caused her arrest at Blythe and incarceration in the county jail to await a preliminary hearing.

It is alleged that Mrs. Mulligan gave the bank a chattel mortgage on a team of mules to secure a \$200 loan and that the mortgaged property was taken to Arizona.

Developments in the "Better Stock—Better Stock" campaign have resulted in figures showing the relative number of males and females kept for breeding purposes.

Following are the ratios based on more than 200,000 head of stock of all kinds, listed with the United States Department of Agriculture:

Cattle—1 bull to 18.9 cows.

Horses—1 stallion to 16.9 mares.

Swine—1 boar to 11.5 sows.

Sheep—1 ram to 37 ewes.

Goats—1 buck to 26.6 does.

Poultry—1 rooster to 23.3 hens.

Other poultry, geese, ducks, turkeys, etc., (average) 1 male to 8.5 females.

These figures represent conditions on more than 2,000 farms in various parts of the country and are believed to be typical of other farms.

They show the importance of placing stress on quality in sires, since in practically all cases a sire is the parent of a very much larger number of offspring than the average female animal.

The farm bureau of Tulare county has decided to conduct a lumbering department on the plan followed by the Glenn county farm bureau.

The big fair at Huntington Beach is one of the important institutions of the county. Let's all get behind it and make it a big success. See the exhibits of the International Tractor, International Truck and the Beeman One Horse Tractor. M. Eltiste & Son, Orange.

"ASPIRIN"

WARNING! The name "Bayer" is the thumbprint which identifies genuine Aspirin prescribed by physicians for 20 years and proved safe by millions.

SAFETY FIRST! Accept only an "unbroken package" of genuine "Bayer Tablets of Aspirin," which contains proper directions for Headache, Earache, Toothache, Neuralgia, Colds, Rheumatism, Neuralgia, Lumbargia, and for pain generally. Strictly American!

Handy tin boxes of 12 tablets cost but a few cents—Larger packages. Aspirin is the trade mark of Bayer Manufacture of Monosaccharides of Salicylic Acid.

Chevrolet Prices Are Guaranteed Until May 1st. 1921

Now that the price question is settled let us prove the wonderful values in the Chevrolet, both large and small models. We are not selling a price, but economical transportation at true values.

The Chevrolet Motor Co. has guarded its owners' investments by building an honest worth-while car, pricing it as low as possible with a fair margin of profit, and maintaining both price and quality.

Every Chevrolet owner is satisfied with his car, the price he paid for it and the service he gets.

A man likes to honestly boost the car he drives. Own and drive a Chevrolet and you will be a real booster.

We have a car for every need and purse, both passenger and commercial. We extend a cordial invitation to visit our exhibit at the Orange County Fair this week.
